MCKAYLA AGUILAR

March: Book One Government Printing Office

Executive Summary for a report which gathers & collates the best national data available to provide a reliable & comprehensive overview of American reading today. This report relies on large, nat. studies conducted on a regular basis by U.S. fed. agencies, supplemented by

academic, foundation, & business surveys. Although there has been measurable progress in recent years in reading ability at the elementary school level, all progress appears to halt as children enter their teenage years. There is a general decline in reading among teenage & adult Americans. Both reading ability & the habit of regular reading have greatly declined among college grad. The declines have demonstrable social, economic, cultural, & civic implications. Charts & tables.

NATIONAL BESTSELLER • Antitrust enforcement is one of the most pressing issues facing America today—and Amy Klobuchar, the widely respected senior senator from Minnesota, is leading the charge. This fascinating history of the antitrust movement shows us what led to the present moment and offers achievable solutions to prevent monopolies, promote business competition, and encourage innovation. In a world where Google reportedly controls 90 percent of the search engine market and Big Pharma's

drug price hikes impact healthcare accessibility, monopolies can hurt consumers and cause marketplace stagnation. Klobuchar—the much-admired former candidate for president of the United States—argues for swift, sweeping reform in economic, legislative, social welfare, and human rights policies, and describes plans, ideas, and legislative proposals designed to strengthen antitrust laws and antitrust enforcement. Klobuchar writes of the historic and current fights against monopolies in America, from Standard Oil and the Sherman Anti-Trust Act to the Progressive Era's trust-busters; from the breakup of Ma Bell (formerly the world's biggest company and largest private telephone system) to the pricing monopoly of Big Pharma and the future of the giant tech companies like Facebook, Amazon, and Google. She begins with the Gilded Age (1870s-1900), when builders of fortunes and rapacious robber barons such as J. P. Morgan, John Rockefeller, and Cornelius Vanderbilt were reaping vast fortunes as industrialization swept across the American landscape, with the rich getting vastly richer and the poor, poorer. She discusses President Theodore

Roosevelt, who, during the Progressive Era (1890s-1920), "busted" the trusts, breaking up monopolies; the Clayton Act of 1914; the Federal Trade Commission Act of 1914; and the Celler-Kefauver Act of 1950, which it strengthened the Clayton Act. She explores today's Big Pharma and its price-gouging; and tech, television, content, and agriculture communities and how a marketplace with few players, or one in which one company dominates distribution, can hurt consumer prices and stifle innovation. As the ranking member of the Senate Judiciary Subcommittee on Antitrust, Competition Policy, and Consumer Rights, Klobuchar provides a fascinating exploration of antitrust in America and offers a way forward to protect all Americans from the dangers of curtailed competition, and from vast information gathering, through monopolies.

This book re-presents the poetry of Rudyard Kipling in the form of bold slogans, the better for us to reappraise the meaning and import of his words and his art. Each line or phrase is thrust at the

reader in a manner that may be inspirational or controversial... it is for the modern consumer of this recontextualization to decide. They are words to provoke: to action. To inspire. To recite. To revile. To reconcile or reconsider the legacy and benefits of colonialism. Compiled and presented by sloganist Dick Robinson, three poems are included, complete and uncut: 'White Man's Burden', 'Fuzzy-Wuzzy' and 'If'.

Art. Asian & Asian American Studies. Filipino American Studies. Co-authored by Abe Ignacio, Enrique de la Cruz, Jorge Emmanuel, and Helen Toribio. THE FORBIDDEN BOOK uses over 200 political cartoons from 1898 to 1906 to chronicle a little known war between the United States and the Philippines. The war saw the deployment of 126,000 U.S. troops, lasted more than 15 years and killed hundreds of thousands of Filipinos beginning in February 1899. The book's title comes from a 1900 Chicago Chronicle cartoon of the same name showing then-President William McKinley putting a lock on a book titled "True History of the War in

the Philippines." Today, very few Americans know about the brutal suppression of Philippine independence or the anti-war movement led at that time by the likes of writer Mark Twain, peace activist Jane Addams, journalist Joseph Pulitzer, steel magnate Andrew Carnegie, labor leader Samuel Gompers, and Moorfield Storey, first president of the NAACP. The book reveals how the public was misled in the days leading to the war, shows illustrations of U.S. soldiers using the infamous "water cure" torture (today referred to as "waterboarding"), and describes a highly publicized court martial of soldiers who had killed prisoners of war. The election of 1900 pitted a pro-war Republican president against an anti-war Democratic candidate. In 1902, the Republican president declared a premature "mission accomplished" as the war was beginning to expand to the southern Philippines. The book shows political cartoons glorifying manifest destiny, demonizing the leader of the Filipino resistance President Emilio Aguinaldo, and portraying Filipinos, Puerto Ricans, Cubans, Hawaiians, Chamorros, and other colonials as dark-skinned

savages in need of civilization. These images were used to justify a war at a time when three African Americans on average were lynched every week across the south and when the Supreme Court approved the "separate but equal" doctrine. More than a century later, the U.S.- Philippine War remains hidden from the vast majority of Americans. The late historian Howard Zinn noted, "THE FORBIDDEN BOOK brings that shameful episode in our history out in the open... The book deserves wide circulation." *To Read Or Not to Read: A Question of National Consequence* Charles C Thomas Pub Limited

How does foreign language learners' agency emerge at the micro-level of classroom activity during the enactment of digitally-enhanced tasks, and how do these learners exercise their agency digitally within and beyond the classroom? Drawing on research in task-based and computer-assisted language learning, this mixed-methods study uncovers key dimensions of "learner agency" - a newcomer to the field of language teaching methodology and applied linguistics. The analysis centers on three

case studies of teenage students' perceptions and handling of digitally-enhanced language learning tasks. These are complemented with a Germany-wide questionnaire survey among participants in the U.S. Embassy School Election Project - an intercultural, blended language learning project that has drawn over 15,000 participants since 2012. Do your students often struggle with difficult novels and other challenging texts? Do they think one reading of a work is more than enough? Do they primarily comprehend at a surface-level, and are they frequently unwilling or unable to discover the deeper meaning found in multi-layered works? Do you feel that you are doing more work teaching the novel than they are reading it? Building on twenty years of teaching language arts, Kelly Gallagher, author of *Reading Reasons*, shows how students can be taught to successfully read a broad range of challenging and difficult texts with deeper levels of comprehension. In *Deeper Reading*, Kelly shares effective, classroom-tested strategies that enable your students to: accept the challenge of reading difficult books; move beyond a "first draft" understanding of the text into deeper levels of reading; consciously monitor their comprehension as they read; employ effective fix-it strategies when their comprehension begins to falter; use meaningful collaboration to achieve deeper understanding of texts; think

metaphorically to deepen their reading comprehension; reach deeper levels of reflection by understanding the relevance the book holds for themselves and their peers; use critical thinking skills to analyze real-world issues. Kelly also provides guidance on effective lesson planning that incorporates strategies for deeper reading. Funny, poignant, and packed with practical ideas that work in real classrooms, *Deeper Reading* is a valuable resource for any teacher whose students need new tools to uncover the riches found in complex texts. *Horton Hears a Who!* Chicago Review Press

Celebrating the lesser known but significant lives and contributions of our nation's early African American leaders, this multicultural complement to most children's books on the American Revolution covers a wide spectrum of subjects, including military, art, religion, and science. Weaving the histories of dozens of men and women—soldiers, sailors, ministers, poets, merchants, doctors, and other community leaders—to properly recognize them among the founders of the United States of America, this text gives a better sense of what

these individuals accomplished and the times in which they lived. Activities include celebrating Constitution Day, cooking colonial foods, publishing a newspaper, petitioning their government, and more. This valuable resource also includes a time line of significant events, a list of historic sites to visit or explore online, and Web resources for further study.

During WW II, the closest most Americans ever came to combat was through the cartoons of Bill Mauldin, the most beloved

enlisted man in the U.S. Army. This book brings together Mauldin's complete works from 1940 through the end of the war under one cover. This collection of over 600 cartoons, most never before reprinted, is more than the record of a great artist: it is an essential chronicle of America's citizen-soldiers from peace through war to victory.

The author of *Mesmerized* delivers another fascinating glimpse into history, this time the story of two brave suffragists on a trek across America to spread the word: Votes for Women! In April 1916, Nell Richardson and Alice Burke set out from New York City in a little yellow car, embarking on a bumpy, muddy, unmapped journey ten thousand miles long. They took with them a teeny typewriter, a tiny sewing machine, a wee black kitten, and a message for Americans all across the country: Votes for Women! The women's suffrage movement was in full swing, and Nell and Alice would not let anything keep them from spreading the word about equal voting rights for women. Braving blizzards, deserts, and naysayers—not to mention a whole lot of

tires stuck in the mud—the two courageous friends made their way through the cities and towns of America to further their cause. One hundred years after Nell and Alice set off on their trip, Mara Rockliff revives their spirit in a lively and whimsical picture book, with exuberant illustrations by Hadley Hooper bringing their inspiring historical trek to life.

The passage of *Citizens United* by the Supreme Court in 2010 sparked a renewed debate about campaign spending by large political action committees, or Super PACs. Its ruling said that it is okay for corporations and labor unions to spend as much as they want in advertising and other methods to convince people to vote for or against a candidate. This book provides a wide range of opinions on the issue. Includes primary and secondary sources from a variety of perspectives; eyewitnesses, scientific journals, government officials, and many others. *United States Government: Democracy in Action, Teacher Wraparound Edition* Knopf

This book deals with Punches and Punch-like magazines in 19th and 20th century Asia, covering an area from Egypt and the Ottoman Empire in the West via British India up to China and Japan in the East. It traces an alternative and largely unacknowledged side of the history of this popular British periodical, and simultaneously casts a wide-reaching comparative glance on the genesis of satirical journalism in various Asian countries. Demonstrating the spread of both textual and visual satire, it is an apt demonstration of the transcultural trajectory of a format intimately linked to media-bound public spheres evolving in the period concerned.

"Herblock's History" is an article written by Harry L. Katz that was originally published in the October 2000 issue of "The Library of Congress Information Bulletin." The U.S.

Library of Congress, based in Washington, D.C., presents the article online. Katz provides a biographical sketch of the American political cartoonist and journalist Herbert Block (1909-2001), who was known as Herblock. Block worked as a cartoonist for "The Washington Post" for more than 50 years, and his cartoons were syndicated throughout the United States. Katz highlights an exhibition of Block's cartoons, that was on display at the U.S. Library of Congress from October 2000. Images of selected cartoons by Block are available online.

Congressman John Lewis (GA-5) is an American icon, one of the key figures of the civil rights movement. His commitment to justice and nonviolence has taken him from an Alabama sharecropper's farm to the halls of Congress, from a segregated schoolroom to the 1963 March on Washington, and from receiving beatings from state troopers to receiving the Medal of Freedom from the first African-American president. Now, to share his remarkable story with new generations, Lewis

presents *March*, a graphic novel trilogy, in collaboration with co-writer Andrew Aydin and New York Times best-selling artist Nate Powell (winner of the Eisner Award and LA Times Book Prize finalist for *Swallow Me Whole*). *March* is a vivid first-hand account of John Lewis' lifelong struggle for civil and human rights, meditating in the modern age on the distance traveled since the days of Jim Crow and segregation. Rooted in Lewis' personal story, it also reflects on the highs and lows of the broader civil rights movement. Book One spans John Lewis' youth in rural Alabama, his life-changing meeting with Martin Luther King, Jr., the birth of the Nashville Student Movement, and their battle to tear down segregation through nonviolent lunch counter sit-ins, building to a stunning climax on the steps of City Hall. Many years ago, John Lewis and other student activists drew inspiration from the 1958 comic book *Martin Luther King and the Montgomery Story*. Now, his own comics bring those days to life for a new audience, testifying to a movement whose echoes will be heard for generations.

A new voice in comics is incisive, funny, and fiercely feminist. "The mental load. It's incessant, gnawing, exhausting, and disproportionately falls to women. You know the scene--you're making dinner, calling the plumber/doctor/mechanic, checking homework and answering work emails--at the same time. All the while, you are being peppered with questions by your nearest and dearest 'where are my shoes?', 'do we have any cheese?...' " -- Australian Broadcasting Corp on Emma's comic In her first book of comic strips, Emma reflects on social and feminist issues by means of simple line drawings, dissecting the mental load, ie all that

invisible and unpaid organizing, list-making and planning women do to manage their lives, and the lives of their family members. Most of us carry some form of mental load--about our work, household responsibilities, financial obligations and personal life; but what makes up that burden and how it's distributed within households and understood in offices is not always equal or fair. In her strips Emma deals with themes ranging from maternity leave (it is not a vacation!), domestic violence, the clitoris, the violence of the medical world on women during childbirth, and other feminist issues, and she does so in a straightforward way that is both hilarious and deadly serious.. If you're not laughing,

you're probably crying in recognition. Emma's comics also address the everyday outrages and absurdities of immigrant rights, income equality, and police violence. Emma has over 300,000 followers on Facebook, her comics have been shared 215,000 times, and have elicited comments from 21,000 internet users. An article about her in the French magazine L'Express drew 1.8 million views--a record since the site was created. And her comic has just been picked up by The Guardian. Many women will recognize themselves in THE MENTAL LOAD, which is sure to stir a wide ranging, important debate on what it really means to be a woman today.
