Gregory Tomasov has

the air is clean, the

Nothing much has

Something that's now

 Gary, his girlfriend,
 Joan, and their friends
 intend to make the
 most of their three day
 vacation from UCLA
 partying at Burning
 Man. But soon after

they arrive at the festival in the remote desert, Joan disappears. Calls to her parents' home yield only dead air. Her school records are gone. And there's no evidence that Joan, or even her roommate, ever existed. Most disturbing of all is what they do find. Among Joan's belongings is a prayer written on a small scroll. It's a safeguard—and a warning—from something called The Outsiders. For Gary and his friends it's the only clue. Now, if they want to find out exactly what happened to Joan, they must follow it. But they may not like what they uncover....

Can you save the planet and have some fun along the way?

Aimed at the teacher who updates students on the latest climate change negotiations, the conservationist who works to protect endangered species, the office manager who buys fair-trade coffee, or the city counselor who lobbies for cycle lanes, this book is a guide for everyone who is trying to create a more sustainable planet. Based on the latest psychological research, Niki Harré shows which strategies work (drawing on positive emotions, role modeling, and social identity), which don't, and why. The book ends with a self-help guide for sustainability advocates that outlines how we can work for change at the personal, group, and civic level. This edition

is fully revised and updated with new material on hope, sadness, worldview and climate change, behavioral contagion, moral foundations, and more. The book is now accompanied by a free online manual with exercises to illustrate the key concepts and apply them to real world sustainability issues.

His study, though, provides dynamic prose renderings of what Price considers to be the themes of Jesus' preaching, such as the Kingdom of God and possessions, as well as the creativity and influence of Jesus' parables. Recommended for general audiences and,

when used with other sources, for undergraduates. - Religious Studies Review This book is complex and highly detailed. It demands to be read and reread carefully. Price is my kind of biblical scholar in his relentless but non-dogmatic reasoning. This informative and gripping book shows us how the Gospel stories were put together in order to satisfy religious craving. - Ulster Humanist This book should be mandatory reading for all scholars concerned with Christian origins ... nothing of comparable importance has been written for at least a decade. - Freethinker For more than a century scholars have been examining the Gospels and other

traditions about the life of Jesus to determine their historical accuracy. Although the results of these scholarly efforts are sometimes controversial, the consensus among researchers today is that the four Evangelists' accounts cannot be taken at face value. In fact, a team of more than 100 scholars called the Jesus Seminar has come to the conclusion that on average only about 18 percent of the four Gospels is historically accurate. An active member of the Jesus Seminar, Dr. Robert M. Price presents the fruits of this important historical research in this fascinating discussion of early Christianity. As the title suggests, Price is none

too optimistic about the reliability of the Gospel tradition as a source of accurate historical information about the life of Jesus. Indeed, he feels that his colleagues in the Jesus Seminar are much too optimistic in their estimate of authentic material in the Gospels. After an introduction to the historical-critical method for nonspecialists and a critique of the methods used by the Jesus Seminar, Price systematically discusses the narrative and teaching materials in the Gospel, clearly presenting what is known and not known about all of the major episodes of Jesus' life. He also examines the parables for authenticity as well as Jesus' teachings about

the Kingdom of God, repentance, prayer, possessions and poverty, the Atonement, and many other features of the Gospels. Written for the general reading public in a lively and accessible style, Dr. Price's highly informative discussion will be of interest to anyone who has wondered about the origins of Christianity. Robert M. Price, Ph.D. (Selma, NC), professor of scriptural studies at the Johnnie Colemon Theological Seminary, is the editor (with Jeffery Jay Lowder) of *The Empty Tomb: Jesus Beyond the Grave* and the *Journal of Higher Criticism*. He is also the author of *Top Secret: The Truth Behind Today's Pop Mysticisms*; *The*

Paperback Apocalypse: How the Christian Church Was Left Behind; *The Reason-Driven Life: What Am I Here on Earth For?*; *The Incredible Shrinking Son of Man*; and *Deconstructing Jesus*; among other works.

The Disappearance

Hardie Grant Publishing

One group of violent felons...One innocent child...One violent death film... One extremely violent detective... All coming together in a city ready to erupt in a relentless summer's heat. There is only one possible result - bullets fly furiously, blood pours copiously and bodies tumble lifelessly. Detective Reid Hollow becomes a hunter in a sea of human scum, acting as lawlessly and more aggressively than the criminals he stalks through alleys, warehouses and cheap hotels. Fueled by an obsession with death and the mental scars of a life of violence Hollow takes this case personally and will stop

at nothing to destroy the people who murdered this poor child for their own debased pleasures. Not for readers under 18 years of age, this book takes the noir genre and grinds it mercilessly into a new direction: HARD CORE NOIR. This is a raw, sweaty fistful of a crime story, filled with contemptible creeps and believable, nasty action. Reid Hollow is a relentless, violent and lawless character... and he's the "good guy!" This gory noir would have scared all of the other books out of the wire rack in a 1930s smoke shop. Mike Howlett, The Weird World of Eerie Publishing

The 14th Reinstated Prometheus Books From the author of the films Lake Dead, (After Dark Film's 8 Films to Die For) and Farmhouse, Daniel P. Coughlin's Ted's Score is a shocking, suspenseful tale of a depraved, ax-wielding serial killer. When beautiful Jules Benton, a seventeen year old senior, goes missing after the spring formal dance in the small town of Watertown, Wisconsin, her father, Richard Benton, becomes suspicious of Jules' boyfriend, David Miller and his involvement with her disappearance. When Richard confirms his suspicions, the brutality of his

capability consumes him and soon David will find out what that means. Unbeknownst to David or Richard, a serial killer by the name of Ted Olson has more to do with Jules' disappearance than anyone might suspect. As Jules' whereabouts unfold, the truth begins to bleed from a dark place. And the authorities have begun to smell the criminal acts committed. Murder and mayhem catch up with the slow pace of this ordinary Middle American town when evil, perversion, and death mislead these simple folks into a disastrous wave of crime that spirals out of control. All the while, Ted collects his score.

Australian music has a proud, colourful and successful history. In 2008, Australian rock and roll turned 50. This book names the best Australian albums of the last 50 years. It places each album in order (from 1 u 100) and discusses why each album deserves its place. It tells the story behind the making of the album,

where the album fits in the artist's career and the album's impact on the local and world stage etc. The entries will feature new interviews with the artists and the producers/managers involved in the recording and the release of the album. It wouldn't be a good list if it didn't polarise people and we hope that this list will. We also hope that it will get people sitting around comparing their favourites and discovering or re-discovering these great albums and others. With 70 years of loving and writing about Australian music between us, we shamelessly believe we've earned the right to write this book. And we think we've got it right. Let the debate

begin. o u John O'Donnell, April 2010

 "The Creature from Reelfoot Lake: The Merman Who Loved Women" is a horror novel that it is reminiscent of the classic cinemas of the 1950s such as "Creature from the Black Lagoon" and "The Blob." But with one major difference: The Reelfoot creature is half-human, a merman who has been on an obsessive search for his birth mother that has lasted more than 200 years. At the

heart of the story are three former college roommates—two male, one female—who all have childhood and relationship issues that dominate their lives. The roommates—and their issues—converge at Reelfoot Lake, Tennessee, where the creature is inflicting a reign of terror that makes it difficult for the ex-roommates to locate a treasure that has been buried since the New Madrid earthquake of 1811. The protagonist is female, and the plot is complicated by the fact that she is being stalked by the third roommate, her ex-husband, at the same time that she is stalked by the creature. It is a sophisticated, multi-layered psychological thriller in which all the main characters are

forced to deal with their individual issues. The creature cannot speak, but he has a distinctive voice that will touch the hearts of readers as he searches for the meaning of his tormented life.
