The Struggle for Existence Cambridge University Press

Based on hundreds of hours of research, interviews, and access to exclusive sources and materials, Sandy Hook is Elizabeth Williamson's landmark investigation of the aftermath of a school shooting, the work of Sandy Hook parents who fought to defend themselves, and the truth of their children's fate against the frenzied

distortions of online deniers and conspiracy theorists. On December 14, 2012, a gunman killed twenty first-graders and six educators at Sandy Hook Elementary School in Newtown, Connecticut. Ten years later, Sandy Hook has become a foundational story of how false conspiracy narratives and malicious misinformation have gained traction in society. One of the nation's most devastating mass shootings, Sandy Hook was used to create destructive and painful

myths. Driven by ideology or profit, or for no sound reason at all, some people insisted it never occurred, or was staged by the federal government as a pretext for seizing Americans' firearms. They tormented the victims' relatives online, accosted them on the street and at memorial events, accusing them of faking their loved ones' murders. Some family members have been stalked and forced into hiding. A gun was fired into the home of one parent. Present at the creation of this terrible

crusade was Alex Jones's Infowars, a far-right outlet that aired noxious Sandy Hook theories to millions and raised money for the conspiracy theorists' quest to "prove" the shooting didn't happen. Enabled by Facebook, YouTube, and other social media companies' failure to curb harmful content, the conspiracists' questions grew into suspicion, suspicion grew into demands for more proof, and unanswered demands turned into rage. This pattern of denial and attack would

come to characterize some Americans' response to almost every major event, from mass shootings to the coronavirus pandemic to the 2020 presidential election, in which President Trump's false claims of a rigged result prompted the January 6, 2021, assault on a bastion of democracy, the U.S. Capitol. The Sandy Hook families, led by the father of the youngest victim, refused to accept this. Sandy Hook is the story of their battle to preserve their loved ones' legacies

even in the face of threats to their own lives.

Through exhaustive reporting, narrative storytelling, and intimate portraits, *Sandy Hook* is the definitive book on one of the most shocking cultural ruptures of the internet era.

 Fiction. African & African American Studies. Latinx Studies. LGBTQIA Studies. Winner of the 2019 Gold Line Press Fiction Chapbook Contest. The stories in Alejandro Heredia's *YOU'RE THE ONLY FRIEND I NEED* offer new possibilities for transnational storytelling and the Dominican diaspora by centering Blackness and queerness. In these stories; friendship is a vehicle to understand what lies between and within people. A young

Dominican immigrant makes an unlikely friend in her Bronx building. Two queer teens venture into the streets of Santo Domingo in search of queer belonging. A 20-something lost in existential thought finds a home in a gay Latin club. In Heredia's stories; friendship is at once balm; poison; wound; and respite from the troubles that society places on migrants; on queer people; on Black folks across the diaspora. *YOU'RE THE ONLY FRIEND I NEED* cuts through

received notions and sings with emotional honesty and lyrical prose. Harry American Quilter's Society From popular LGBTQ advice columnist and writer John Paul Brammer comes a hilarious, heartwarming memoir-in-essays chronicling his journey growing up as a queer, mixed-race kid in America's heartland to becoming the "Chicano Carrie Bradshaw" of his generation. "A wise and charming book. [Brammer] is such a good writer, and so well

rounded."—David Sedaris "[Brammer] is both kind and piercingly funny, often in the same sentence....Personal and affecting....¡Hola Papi! is a master class of tone and tenderness, as Brammer balances self-compassion with humor." —THE NEW YORK TIMES BOOK REVIEW (EDITORS' CHOICE) "[¡Hola Papi! should be] required reading...[Brammer's] writing is incredibly funny, kind, and gracious to his readers, and deeply vulnerable in a way that makes it feel as if he's

talking to only you." —LOS ANGELES TIMES The first time someone called John Paul (JP) Brammer "Papi" was on the popular gay hookup app Grindr. At first, it was flattering; JP took this as white-guy speak for "hey, handsome." Who doesn't want to be called handsome? But then it happened again and again...and again, leaving JP wondering: Who the hell is Papi? What started as a racialized moniker given to him on a hookup app soon became the inspiration for his now

wildly popular advice column “¡Hola Papi!,” launching his career as the Cheryl Strayed for young queer people everywhere—and some straight people too. JP had his doubts at first—what advice could he really offer while he himself stumbled through his early 20s? Sometimes the best advice to dole out comes from looking within, which is what JP has done in his column and book—and readers have flocked to him for honest, heartfelt wisdom, and of course, a few

laughs. In ¡Hola Papi!, JP shares his story of growing up biracial and in the closet in America’s heartland, while attempting to answer some of life’s toughest questions: How do I let go of the past? How do I become the person I want to be? Is there such a thing as being too gay? Should I hook up with my grade school bully now that he’s out of the closet? Questions we’ve all asked ourselves, surely. ¡Hola Papi! is “a warm, witty compendium of hard-won life lessons,”

(Harper’s Bazaar) for anyone—gay, straight, and everything in between—who has ever taken stock of their unique place in the world. “Readers are likely to become addicted to these stories; they’re that good...Brammer comes to know himself very well, and readers will be delighted to make his acquaintance, too,” (Booklist, starred review). Duck for Turkey Day Bloomsbury USA Childrens On Looking begins with inattention. It is about attending to the joys of

the unattended, the perceived 'ordinary.' Horowitz encourages us to rediscover the extraordinary things that we are missing in our ordinary activities. Pick In this stunning follow-up to *Hollow Kingdom* and *Seattle Times/Pacific Northwest Booksellers Association* bestseller, the animal kingdom's "favorite apocalyptic hero" is back with a renewed sense of hope for humanity, ready to take on a world ravaged by a viral pandemic (Helen Macdonald). Once upon an apocalypse, there lived an obscenely handsome American crow named S.T. . . . When the world last checked-in with its favorite Cheeto addict,

the planet had been overrun by flesh-hungry beasts, and nature had started re-claiming her territory from humankind. S.T., the intrepid crow, alongside his bloodhound-bestie Dennis, had set about saving pets that had become trapped in their homes after humanity went the way of the dodo. That is, dear reader, until S.T. stumbled upon something so rare—and so precious—that he vowed to do everything in his power to safeguard what could, quite literally, be

humanity's last hope for survival. But in a wild world plagued by prejudiced animals, feather-raising environments, new threats so terrifying they make zombies look like baby bunnies, and a horrendous dearth of cheesy snacks, what's a crow to do? Why, wing it on another big-hearted, death-defying adventure, that's what! Joined by a fabulous new cast of animal characters, S.T. faces many new challenges plus his biggest one yet:

parenthood. Includes a Reading Group Guide. Measuring Penny Mad Creek Books Winner of the 2016 Governor General's Literary Award for Young People's Literature — Illustrated Books Tokyo lives in a small house between giant buildings

with his family and his cat, Kevin. For years, highways and skyscrapers have been built up around the family's house where once there were hills and trees. Will they ever experience the natural world again? One day, an old woman offers Tokyo seeds, telling him they will grow into whatever he wishes. Tokyo and his grandfather are astonished when the seeds grow into a forest so lush that it takes over the entire city overnight. Soon the whole city has gone wild, with animals

Lemurian Time Sorcery.

From before the

beginning (which was

also, according to them,

already the end), the adepts of the Architectonic Order of the Eschaton have worked tirelessly to secure the past, present, and future against the incursions of Neolemurian time-sorcery, eliminating all polytemporal activity, stitching up the future, sealing every breach and covering every track. According to the AOE, the CCRU “does not, has not, and will never exist.” And yet... The texts collected here document the CCRU's perilous efforts to catalogue the traces of

Lemurian occulture, bringing together the scattered accounts of those who had stumbled upon lagooned relics of nonhuman intelligence—a project that led ultimately to the recovery of the Numogram and the reconstruction of the principles of Lemurian time-sorcery—before disintegrating into collective schizophrenia and two decades of absolute obscurity. Meshing together fiction, number theory, voodoo, philosophy, anthropology, palate tectonics,

information science, semiotics, geotraumatism, occultism, and other nameless knowledges, in these pages the incomplete evidence gathered by explorers including Burroughs, Blavatsky, Lovecraft, Jung, Barker, J.G. Ballard, William Gibson, and Octavia Butler, but also the testimony of more obscure luminaries such as Echidna Stillwell, Oskar Sarkon, and Madame Centauri, are clarified and subjected to systematic investigation, comparison, and assessment so as to

gauge the real stakes of the Time-War still raging behind the collapsing façade of reality. One of the most compelling and unnerving collective research enterprises to have surfaced in the twentieth century, the real pertinence of the CCRU's work is only now beginning to reveal itself to an unbelieving world. Saida Agostini's first full-length poetry collection, *Let the Dead*, is an

exploration of the mythologies that seek to subjugate Black bodies, and the counter-stories that reject such subjugation. Audacious, sensual, and grieving, this work explores how Black women harness the fantastic to craft their own road to freedom. A journey across Guyana, London, and the United States, it is a meditation on black womanhood, queerness, the legacy of colonization, and pleasure. These poems craft a creation story fat with love, queerness,
