Extensively field-tested and fine-tuned over many years, and designed specifically for a one-year course, JC McKeown's Classical Latin: An Introductory Course offers a thorough, fascinating, and playful grounding in Latin that combines the traditional grammatical method with the reading approach. In addition to grammar, paradigms, and readings, each chapter includes a variety of extraordinarily well-crafted exercises that reinforce the grammar and morphology while encouraging the joy of linguistic and cultural discovery.

Jane Logan is a stranger to Berlin and she finds the city alive and echoing with the ghosts of its turbulent past. At six months pregnant, she's instructed by her partner Petra to rest and enjoy her new life in Germany. But while Petra is out at work, Jane begins to feel uneasy in their chic apartment. Screams reverberate through the walls, lights flicker in the derelict building that looms over the yard, a shadow passes on the stairs . . .

Jane meets a neighbour's daughter, a girl whose life she tries to mend, but her involvement only further isolates her. Alone and haunted, Jane fears the worst . . . but the worst is yet to come. Louise Welsh, the acclaimed author of *The Cutting Room*, delivers another masterful suspense novel. *The Girl on the Stairs* is a powerful psychological thriller packed with twists and turns to keep you reading well into the night. Read it, or be left in the dark.

One of the greatest pleasures of having a garden is to be able to observe and identify the great number of animal species which may feed, bathe and reside there, or simply fly over or pass through. This book combines full identification and behavioural features of over 250 common species, including birds, mammals, amphibians, wasps and bees, beetles and spiders, insects and invertebrates. Stunningly illustrated, yet simple to use, "The Complete Garden Wildlife Book" will ensure that you get the maximum pleasure from your garden whatever its size or location.

'I was born on 25th May, 1938, in the front bedroom of a house in Orton Road, a house on the outer edges of Raffles, a council estate. I was a lucky girl.' So begins Margaret Forster's journey through the houses she's lived in, from that sparkling new council house, to her beloved London home of today. This is not a book about bricks and mortar though. This is a book about what houses are to us, the effect they have on the way we live our lives and the changing nature of our homes: from blacking grates and outside privies; to cities dominated by bedsits and lodgings; to the houses of today

converted back into single dwellings. Finally, it is a gently insistent, personal inquiry into the meaning of home.

In a comprehensive treatment of Statistical Mechanics from thermodynamics through the renormalization group, this book serves as the core text for a full-year graduate course in statistical mechanics at either the Masters or Ph.D. level. Each chapter contains numerous exercises, and several chapters treat special topics which can be used as the basis for student projects. The concept of scaling is introduced early and used extensively throughout the text. At the heart of the book is an extensive treatment of mean field theory, from the simplest decoupling approach, through the density matrix formalism, to self-consistent classical and quantum field theory as well as exact solutions on the Cayley tree. Proceeding beyond mean field theory, the book discusses exact mappings involving Potts models, percolation, self-avoiding walks and quenched randomness, connecting various athermal and thermal models. Computational methods such as series expansions and Monte Carlo simulations are discussed, along with exact solutions to the 1D quantum and 2D classical Ising models. The renormalization group formalism is developed, starting from real-space RG and proceeding through a detailed treatment of Wilson's epsilon expansion. Finally the subject of Kosterlitz-Thouless systems is introduced from a historical perspective and then treated by methods due to Anderson, Kosterlitz, Thouless and Young. Altogether, this comprehensive, up-to-date, and engaging text offers an ideal package for advanced undergraduate or graduate courses or for use in self study.

This is the English-language edition of what has become one of the most controversial books in German politics today. Oskar Lafontaine was the leader of Germany's Social Democratic party and finance minister in Gerhard Schröder's government until he suddenly resigned in March 1999. Lafontaine's left-wing commitments brought him into conflict with Schröder's endorsement of third way politics and with his attempt to remodel the SDP along the lines of Tony Blair's New Labour. *The Heart Beats on the Left* is the inside story of why Lafontaine broke with the SDP and Schröder's government, and why he believed that the social and political costs of Schröder's third way politics were too high. It is a merciless settling of scores in which the policies of Schröder and his government are subjected to scathing criticism. But it is also the most sustained criticism of third way politics from a prominent political figure who stands on the left. A bestseller in Germany and already translated into many languages, this book is bound to be widely reviewed in English and to become a focal point for political debate about social democracy and its future.

Loyalty. Envy. Obligation. Dreams. Disappointment. Fear. Negligence. Coping. Elation. Lust. Nature. Freedom. Heartbreak. Insouciance. Audacity. Gluttony. Belief. God. Karma. Knowing what you want (there is probably a French word for it). Saying Yes. Destiny. Truth. Devotion. Forgiveness. Life. Happiness (ever after). Hannah and Zoe haven't had much in their lives, but they've always had each other. So when Zoe tells Hannah she needs to get out of their down-and-out New Jersey town, they pile into Hannah's beat-up old Le Mans and head west, putting everything—their deadbeat parents, their disappointing love lives, their inevitable enrollment at community college—behind them. As they chase storms and make new friends, Zoe tells Hannah she wants more for her. She wants her to live bigger, dream grander, aim higher. And so Zoe begins teaching Hannah all about life's intangible things, concepts sadly missing from her existence—things like audacity, insouciance, karma, and even happiness. An unforgettable read from the acclaimed author of *The Probability of Miracles*, *The Museum of Intangible Things* sparkles with the humor and heartbreak of true friendship

and first love.

Four artists from Germany, known globally, who have each attained a level of fame that is unique in the history of German art. Their renown was cemented by their early work of the 1960s--that decade of reaction and rebellion, of confrontation and upheaval, of utopias and a new social compass. In conversations with Gotz Adriani, the artists talk frankly about their work during this time when German society, East and West, may have got over the Nazi regime and the worst of the devastation of the war, but not the cultural and intellectual roots of Germany's fascist past. The book offers a fresh and comprehensive look at the early works of Baselitz, Richter, Polke, and Kiefer, at how each one variously tackled the aesthetic dominance of abstract art and the unique social and political environment of their newly founded country, the Federal Republic of Germany.

Ellernklipp spielt von 1767 bis 1781, kurz nach dem Siebenjährigen Krieg am Nordrand des Harzes. Der Forstaufseher und "Heidereiter" Baltzer Bocholt lebt mit seinem Sohn Martin und der Pflegetochter Hilde Rochussen, der unehelichen Tochter des ortsansässigen Grafen, im Dorf Emmerode. Bocholt kann recht schnell handeln, was sich zeigt, als er einen Wilderer kurzerhand erschießt. Sowohl Vater als auch Sohn sind an Hilde interessiert, die auf eine eigentümliche Art anziehend ist. Als Bocholt erkennt, dass sich Martin und Hilde lieben, kommt es aus Eifersucht am Ellernklipp, Erlenbewachsenen Klippen, zum Kampf, und Bocholt stößt seinen Sohn in die Tiefe. Er kehrt nach Hause zurück und verschweigt seine Tat. Drei Jahre später heiratet er Hilde. Sie bekommen ein Kind, das jedoch krank ist. Theodor Fontane (1819-1898) war ein deutscher Schriftsteller. Er gilt als literarischer Spiegel Preußens und als bedeutendster deutscher Vertreter des Realismus.

Cultural displacement -- physical dislocation from one's native culture or the colonizing imposition of a foreign culture -- is one of the most formative experiences of our century. These essays examine the impact of this experience on contemporary notions of cultural identity from the perspectives of anthropology, history, philosophy, literature, and psychology.
