This newly revised and expanded edition of Howard Hughes chronicles the life and legacies of one of the most intriguing and accomplished Americans of the twentieth century. Hughes, born into wealth thanks to his father's innovative drill bit that transformed the oil industry, put his inheritance to work in multiple ways, from producing big-budget Hollywood movies to building the world's fastest and largest airplanes. Hughes set air speed records and traveled around the world in record time, earning ticker-tape parades in three cities in 1938. Later, he moved to Las Vegas and invested heavily in casinos. He bought seven resorts, in each case helping to loosen organized crime's grip on Nevada's lifeblood industry. Although the public viewed Hughes as a heroic and independent-minded trailblazer, behind closed doors he suffered from germophobia, obsessive-compulsive disorder, and an addiction to painkillers. He became paranoid and reclusive, surrounding himself with a small cadre of loyal caretakers. As executives battled each other over his empire, Hughes' physical and mental health deteriorated to the point where he lost control of his business affairs. This second edition includes more insider details on Hughes' personal interactions with actresses, journalists, and employees. New chapters provide insights into

Hughes's involvement with the mob, his ownership and struggles as the majority shareholder of TWA and the wide-ranging activities of Hughes Aircraft Company, Hughes's critical role in the Glomar Explorer CIA project (a deep-sea drillship platform built to recover the Soviet submarine K-129), and more. Based on in-depth interviews with individuals who knew and worked with Hughes, this fascinating biography provides a colorful and comprehensive look at Hughes—from his life and career to his final years and lasting influence. This penetrating depiction of the man behind the curtain demonstrates Hughes's legacy, and enduring impact on popular culture.

Portrayed by Leonardo DiCaprio in the Martin Scorsese movie *The Aviator*, Howard Hughes is legendary as a playboy and pilot—but he is notorious for what he became: the ultimate mystery man. Citizen Hughes is the New York Times bestselling exposé of Hughes's hidden life, and a stunning revelation of his “megalomaniac empire in the emperor's own words” (Newsweek). At the height of his wealth, power, and invisibility, the world's richest and most secretive man kept what amounted to a diary. The billionaire commanded his empire by correspondence, scrawling thousands of handwritten memos to unseen henchmen. It was the only time Howard Hughes risked writing down his orders, plans, thoughts, fears, and desires. Hughes claimed the papers were so sensitive—“the very most confidential, almost sacred information as to my innermost activities”—that not even his most trusted aides or executives were allowed to keep the messages he sent them. But in the early-morning hours of June 5, 1974, unknown burglars staged a daring break-in at Hughes's supposedly impregnable headquarters and escaped with all the confidential files. Despite a top-secret FBI investigation and a million-dollar CIA buyback bid, none of the stolen secret papers were ever found—until investigative reporter Michael Drosnin cracked the case. In *Citizen Hughes*, Drosnin reveals the true story of the great Hughes heist—and of the real Howard Hughes. Based on nearly ten thousand never-before-published documents, more than three thousand in Hughes's own handwriting, *Citizen Hughes* is far more than a biography, or even an unwilling autobiography. It is a startling record of the secret history of our times.

The Mysterious Howard Hughes Revealed Crown

Verl Frehner's book, *The Mysterious Howard Hughes Revealed*, is a revealing new book, on a somewhat seasoned subject. It is an extensive and comprehensive work about the life of Howard Robert Hughes. It is biographical in nature and is thought to contain the most complete, in-depth, far-reaching, and extensive first-hand personal information available about him. As such, it promises to provide the reader with numerous additional insights into this man. Under normal circumstances this book about Howard Hughes would normally have been written years ago. Despite this, the mystery and intrigue attributed to him has only partially mellowed with the passing of time. The "wall of reclusiveness" that he created to isolate himself from the media produced a shortage of information about him that still "begs" to be satisfied. The content of this book accomplishes what most people want to know about him--what he thought, what he said, what he felt, what he did, and what he was about, in his everyday business and private-time activities. Much of the basic information in *The Mysterious Howard Hughes Revealed* comes from a confidential employee to Howard Hughes named Chuck Waldron, who shares, in a very respectful and forthright manner, some of the very human characteristics that Howard Hughes possessed. It is through this "confidential employee," and many other sources of information, that the reader is allowed to see the strengths, weaknesses, and even the oddities of Howard Hughes. By design, the thrust of this story begins on January 1, 1970, and tells of the last seven years, three months, and four days in his life, until his death on April 5, 1976 (Howard Hughes' most reclusive years). Against this framework there is much more information included and inserted in the numerous "flashbacks" about his personal life found in records, recordings, stories, and historical events that parallel his entire life and adds significantly to the Howard Hughes story. Because of his reclusiveness it was difficult for people to really get to know him. As a result of this book, those who read it will come away with the feeling that they know Howard Hughes.

When Howard Hughes died in 1976, he left no will. His estate had more than 1000 claimants, including 22 cousins and many alleged, illegitimate offspring. This is the story of the battle to settle the final claim.

I always knew Howard Hughes was Bob Hope in makeup. I knew who Bob Hope was since the '70s. I began gathering facts and proofs to prove beyond reasonable doubt that I knew what I was talking about! I wrote this book because I was tired of telling my theory to just one or two people at a time. Howard Hughes was Bob Hope in makeup, and he told you so in his TV skits, in his movies, and in his books. The life of Bob Hope was a cover story bought and paid for by the United States government—an alleged life. Howard Rupert Hughes Jr. was “Sonny” billionaire industrialist, oilman, movie producer, screenwriter, director, photographer, and inventor of satellites, lasers, ships, planes, jets, and rockets. Hope himself stated that he had a group of writers, and he was the one with two (2) heads. And most of all, he was a character actor in his own movies from his own studios. I have in my possession a magazine ad with Hope lying in bed, and the header above his picture read: “Two of the most famous names in America sleep together.” My theory is, Howard Hughes disappeared, went underground, and reappeared in makeup as Bob Hope in an “alleged life,” wearing a mask. Howard Hughes was talking behind his Bob Hope face. Here's a quote from Hope: “I do my best impersonations right in front of the people, and they don't get it. They don't listen.” Hope stated “my names” would go down in history. Another quote from Hope stated, “My sixty years with NBC proves Lincoln was wrong. You can fool all the people all the time.” He did!

"...Howard Hughes never wrote his autobiography...what you are about to read is actually a hoax...Irving was already a best-selling author when, in late 1970, he hit upon the idea of faking the autobiography of Howard Hughes..."--Foreword.

Howard Hughes embodied the American dream: envied by powerful men, desired by beautiful women, Hughes lived his life larger than all who surrounded him and yet died an emaciated recluse. This makes him the perfect subject for red-hot biographer Alton Reece. Riding high on the wave of previous astonishing success, Reece sees Hughes as more than simply a name worth the seven-figure advance he's demanding from his publisher. He finds in Hughes a kindred spirit of greatness, a man misunderstood and beaten down by jealous inferiors. But even as Reece struggles to 'know' his subject, his own rapidly unravelling life keeps finding unexpected ways to intrude. With a deft comic touch and an astounding narrative style, Steven Carter's novel creates a picture of a Hughes who might have been, a biographer who can't separate his subject from his own visions of grandeur, and a public that demands its heroes be larger than life - if only so they can be more easily torn down.

Many people know about Howard Hughes, Americas first billionaire. He was an aviation engineer, an Oscar-winning motion picture producer and director, and a hotel and casino owner in Las Vegas and Reno, with seven establishments. He built the biggest airplane in the world at the timeknown as the Spruce Gooseand the Glomar Explorer supership for the CIA. He owned RKO Motion Picture Studios in Hollywood, as well as tens of thousands of acres in California, Nevada, and Texas. Fewer people, however, know the Howard Hughes of the neon world of Las Vegas in the 1970s. Reclusive and eccentric, Hughes spent his later years surrounded by Mormon aides who insulated him from outsiders. This collection of biographical anecdotes includes stories of the power players of the timecelebrities, famous actresses, and the Las Vegas Mafiaas well as tales of Hughess bevy of less-well-known ladies. Told by an insider who knew Hughes in that era, these stories reveal new aspects of an American icon, set against the background of Sin City, the town he loved so much. John has captured a fascinating era here; I know I was there. Alvin Zuckert, Emmy-award winning television director Johns book caused me to relive an exciting and wonderful time in my life. There were sides of Hughes you never knew existed until now! Ted West, engineer for Hughes Television, KLAS-TV and FOX-TV, Las Vegas, Nevada No crapshoot here; Johns got an absolute winner. In this riveting popular history, the creator of *You Must Remember This* probes the inner workings of Hollywood's glamorous golden age through the stories of some of the dozens of actresses pursued by Howard Hughes, to reveal how the millionaire mogul's obsessions with sex, power and publicity trapped, abused, or benefitted women who dreamt of screen stardom. In recent months, the media has reported on scores of entertainment figures who used their power and money in Hollywood to sexually harass and coerce some of the most talented women in cinema and television. But as Karina Longworth reminds us, long before the Harvey Weinstens there was Howard Hughes—the Texas millionaire, pilot, and filmmaker whose reputation as a cinematic provocateur was matched only by that as a prolific womanizer. His supposed conquests between his first divorce in the late 1920s and his marriage to actress Jean Peters in 1957 included many of Hollywood's most famous actresses, among them Billie Dove, Katharine Hepburn, Ava Gardner, and Lana Turner. From promoting bombshells like Jean Harlow and Jane Russell to his contentious battles with the censors, Hughes—perhaps more than any other filmmaker of his era—commoditized male desire as he objectified and sexualized women. Yet there were also numerous women pulled into Hughes's grasp who never made it to the screen, sometimes virtually imprisoned by an increasingly paranoid and disturbed Hughes, who retained multitudes of private investigators, security personnel, and informers to make certain these actresses would not escape his clutches. Vivid, perceptive, timely, and ridiculously entertaining, *The Seducer* is a landmark work that examines women, sex, and male power in Hollywood during its golden age—a legacy that endures nearly a century later.
