Awareness of the dangers of toxic components in antifouling coatings has raised interest in the potential for nontoxic alternatives. Marine organisms from bacteria to invertebrates and plants use chemicals to communicate and defend themselves. This book explores natural based antifoulants,

their ecological functions, methods of characterisation and possible uses in antifouling. The text takes on the challenge of identifying such compounds, designing sustainable production and incorporating them into antifouling coatings.

[Antifouling Compounds](#) Cornell University Press

This provocative book stands our sixties' liberation on its head, taking an inventory of its unintended side-effects.--Le Nouvel Quotidien. (Philosophy)

Hugs and Kisses New Directions Publishing

Take a journey with the artist and writer Petar Meseldzija, who tells how he was allowed unparalleled access through the Invisible Curtain and into the land of giants. A year in the making, this book's sixteen paintings and nearly ninety drawings bring to life Petar's experiences on this journey and secrets uncovered, going back to ancient times. He shares stories of new discoveries that free giants from the murky abyss of myth and a forgotten past. Told in three stages, The Book of Giants includes the illustrated stories The Giants Are Coming, recounting a dynamic clash that lasted one hundred years; The Little Kingdom, where a giant befriends a nation of humans and

becomes their adamant protector against ferocious invaders; The Northern Giants, who embrace the warrior spirit through countless battles; Giant Velles, the story of ignorance and how the strength of goodness perseveres; and The Great Forest, wherein the author discovers little creatures called the keppetz and relates his experiences spent with ogres while on his quest to meet the Golden One and to determine the purpose of his journey. Through the strength of his own power, he discovers his blessings, his limitations and finally his personal myth. Furthermore, you will discover why giants made a push into the underground, followed by their exodus and deliverance to a new land. You'll also learn why the myth of giants is still alive, why their time spent with humans remains elusive and why giants prefer to remain hidden in their world. Join Petar Meseldzija on his journey of discovery.

Dictionnaire historique et critique, par Mr. Pierre Bayle. Tome premier [-quatrième] Cambridge University Press

The world has changed radically since 1989, when the General Assembly declared the period from 1990 to 1999 as the United Nations Decade of International Law. During that time, the

international community claimed some major achievements as reflected by the adoption of conventions and treaties. This publication presents a collection of essays from legal advisers of States and international organizations, all of whom are among those committed to promoting respect for international law. Their contribution provides a practical perspective on international law, viewed from the standpoint of those involved in its formation, application and administration.

Life of Adam Smith Walter de Gruyter GmbH & Co KG

In this unique work, Henry Miller gives an utterly candid and self-revealing account of the reading he did during his formative years.

The Submissive Penguin

In a world without political freedom, personal freedom and precious little faith in anything comes a mysterious man in a white porcelain mask who fights political oppressors through terrorism and seemingly absurd acts. It's a gripping tale of the blurred lines between ideological good and evil. The inspiration for the hit 2005 movie starring Natalie Portman and Hugo Weaving, this amazing graphic novel is packaged with a collectable reproduction of the iconic V mask.

The Tyranny of Pleasure Macmillan

A colorful portrait, graced by more than two hundred photographs, of the French supermodel Laetitia Casta, often considered one of the sexiest and most beautiful women in the world, captures her unique style and discusses her perspective on life and on her career. 27,500 first printing.

This book explores the implications of newly developing risks such as hugely damaging hurricanes, new diseases, terrorist attacks, and disruptions to critical infrastructures.

Grand dictionnaire français-italien et italien-français Hachette UK

The first novel in the seductive and scandalous New York Times bestselling series that has enthralled millions. Abby King has a secret fantasy... New York knows Nathaniel West as the brilliant and handsome CEO of West Industries, but Abby knows he's more: a sexy and skilled dominant who is looking for a new submissive. Yearning to experience a world of pleasure beyond her simple life as a librarian, Abby offers herself to Nathaniel to fulfill her most hidden desires. After only one weekend with the Master, Abby knows she needs more, and fully submits to Nathaniel's terms. But despite the pleasure he takes in Abby's willing spirit, the Nathaniel hidden behind the rules remains cold and distant. As Abby falls deeper into his tantalizing world of power and passion, she fears that Nathaniel's heart may be beyond her reach—and that her own might be beyond saving...

Penguin

Seneca's developed metaphors draw on what is known to describe the unknown. They put hard ethical in highly accessible, and often quite entertaining, terms. The present book provides a functional description of Seneca's dialectical relation between metaphorical language and philosophy. It shows how Stoic philosophy finds a new means of expression in Seneca's highly elaborated rhetorical discourse, and how this relates to the social and cultural demands of Neronian culture. Metaphors are purposely utilized to work "collectively" rather than by category or type and that, therefore, the analysis of what metaphors do when Seneca chooses to combine them in clusters, demonstrates the existence of a "metanarrative of rhetoric". This approach is fundamentally innovative and has the advantage of gauging the functioning of Senecan style as a whole, rather than focusing on single features of its rhetorical functioning. The main target is to show how philosophical preaching materially contributes to the healing of human soul because it shapes the individual's cognitive faculty in a way that is physical and not simply figurative. The stylus and the scalpel blend in their functions. This kind of therapy is not just the simulacrum of a more "real" one, it is in itself medical in nature.

Gösteri La Plage

A stunning edition of this modern classic of World War One, featuring an introduction by the author and insightful testimonies from soldiers.

The J. Paul Getty Museum Journal OECD Publishing

This book provides the first comprehensive and critical examination of the spatial assumptions underpinning transboundary protected areas in Europe, at a time of surging global enthusiasm in creating and managing such areas. It explores how the reliance on the natural science approach to space within environmental planning has led to a return of exclusionary discourses, in paradoxical contrast to the stated claims of designing 'peace parks'. The book builds a much-needed link between the critical geopolitical literature on boundaries and social approaches to nature and hybridity. Drawing the Line is theoretically informed yet grounded in substantial fieldwork from sites in France, Germany, Italy, Poland, Romania, Slovakia and the Ukraine. It uses material from the field to build and question theoretical debates, moving beyond site-specific issues to wider patterns and trends.

The Exposure UNESCO Publishing

«Histoire de la macrobiotique à travers les âges» De Platon à Ohsawa. Véritable roman historique, sur la médecine et les techniques de longue vie, ce livre éclaire d'un jour nouveau ce qui de tout temps a été appelé « macrobiotique ». Peut-être également considéré comme une véritable alternative pour les temps présents où notre santé et notre mort échappent de plus en plus à notre libre arbitre. Cet ouvrage est destiné à tout public, mais devrait être lu en priorité par les anciens, néophytes ou futurs pratiquants de l'art de vivre macrobiotique et par tous ceux qui rêvent d'une vie meilleure dans un monde unifié en santé et en Paix.

Learn more about Adam Smith, the groundbreaking philosopher who played an important role in originating the study of economics and gave us many of the concepts that still govern the market today. Written by John Rae, this biography details Smith's early life in Scotland and his later rise to academic renown, as well as the events and influences that led him to produce masterworks like *The Wealth of Nations*.

The World Through Picture Books Gérard Wenker

The first in an epic new fantasy series, introducing an unforgettable new heroine and a stunningly original dystopian steampunk world with a flavor of feudal Japan. A DYING LAND The Shima Imperium verges on the brink of environmental collapse; an island nation once rich in tradition and myth, now decimated by clockwork industrialization and the machine-worshippers of the Lotus Guild. The skies are red as blood, the land is choked with toxic pollution, and the great spirit animals that once roamed its wilds have departed forever. AN IMPOSSIBLE QUEST The hunters of Shima's imperial court are charged by their Shogun to capture a thunder tiger - a legendary creature, half-eagle, half-tiger. But any fool knows the beasts have been extinct for more than a century, and the price of failing the Shogun is death. A HIDDEN GIFT Yukiko is a child of the Fox clan, possessed of a talent that if discovered, would see her executed by the Lotus Guild. Accompanying her father on the Shogun's hunt, she finds herself stranded: a young woman alone in Shima's last wilderness, with only a furious, crippled thunder tiger for company. Even though she can hear his thoughts, even though she saved his life, all she knows for certain is he'd rather see her dead than help her. But together, the pair will form an indomitable friendship, and rise to challenge the might of an empire.

Le nouvel observateur Algora Publishing

Many early novels were cosmopolitan books, read from London to Leipzig and beyond, available in nearly simultaneous translations into French, English, German, and other European languages. In *Novel Translations*, Bethany Wiggin charts just one of the paths by which newness—in its avatars as fashion, novelties, and the novel—entered the European world in the decades around 1700. As readers across Europe snapped up novels, they domesticated the genre. Across borders, the novel lent readers everywhere a suggestion of sophistication, a familiarity with circumstances beyond their local ken. Into the eighteenth century, the modern German novel was not German at all; rather, it was French, as suggested by Germans' usage of the French word *Roman* to describe a wide variety of genres: pastoral romances, war and travel chronicles, heroic narratives, and courtly fictions. Carried in large part on the coattails of the Huguenot diaspora, these romans, nouvelles, amours secrets, histoires galantes, and histories scandaleuses shaped German literary culture to a previously unrecognized extent. Wiggin contends that this French chapter in the German novel's history began to draw to a close only in the 1720s, more than sixty years after the word first migrated into German. Only gradually did the Roman go native; it remained laden with the baggage from its "French" origins even into the nineteenth century.
