Visions* Wm. B. Eerdmans  
Publishing  
Beginning with the  
destruction of Jerusalem

and continuing through  
the persecutions of  
Christians in the Roman  
Empire, the apostasy of  
the Dark Ages, the shining  
light of the Reformation,  
and the worldwide  
religious awakening of the  
nineteenth century, this  
volume traces the conflict

into the future, to the  
Second Coming of Jesus  
and the glories of the  
earth made new. In this  
concluding volume, the  
author powerfully points  
out the principles involved  
in the impending conflict  
and how each person can  
stand firmly for God and

His truth.

This volume describes and analyzes alternative and emerging models of non-territorial autonomy (NTA), particularly in relation to decentralization. The authors push the NTA debate in new directions by offering a re-conceptualization based on ethno-cultural bottom-up decentralized action that redefines autonomy into its true sense of autonomous action.

Through description, critical analysis, and evaluation of several case studies, this book assesses the potential for new paradigms within decentralized systems. The authors explore two approaches to political decentralization which add to the theoretical debate on NTA – network governance, which focuses on new dynamics in policy processes, and normative pluralism, which focuses on accommodating the distinctness of the groups through the subsidiarity

principle with regard to their own affairs. The book explores the potential ramifications of ethno-cultural NTA institutions acting within the wider framework of state institutions and assesses the functions of these institutions as another dimension of decentralization and thus another ‘layer’ of democracy. With contemporary examples from Europe, the Middle East, Asia and South Africa, as well as theoretical aspects of the conceptualization of

autonomy, this book offers a truly global perspective. It will be of great interest to policy-makers in countries experiencing adverse developments due to the pressure on public management, as well as advanced students and scholars questioning the ability of the Westphalian system to address cultural diversity.

Isichei's thorough study surveys the full breadth of Christianity in Africa, from the early story of Egyptian

Christianity to the churches of the Middle Years (1500-1800) to the prolific success of missions throughout the 1900s. This important book fills a conspicuous void of scholarly works on Africa's Christian history. Includes 26 maps.

The European Union's  
Roles in International  
Politics Routledge

This new volume develops a conceptual framework for considering and evaluating the roles played by the EU in international politics, drawing upon the literatures of role analysis, international relations and European integration. It

pays particular attention to five aspects of role analysis: role conceptions, origins of roles, role institutionalization, role performance and role impact. These form themes running through the volume and are dealt with in individual contributions as appropriate. It also presents fresh applications and empirical case studies that support the conceptual framework and demonstrate the uses of role analysis in relation to the EU and its international activities,

and its capacity to inform investigation from different perspectives and standpoints. By taking this approach and by providing both conceptual and empirical argument, this book delivers an innovative perspective on the analysis of the European Union as an international actor, and on the ways in which EU actions are formed and have impact. It also establishes a research agenda based on rigorous development of the framework for role analysis, and

demonstrates the ways in which this agenda might be furthered.

The final book of the Bible, Revelation prophesies the ultimate judgement of mankind in a series of allegorical visions, grisly images and numerological predictions. According to these, empires will fall, the "Beast" will be destroyed and Christ will rule a new Jerusalem. With an introduction by Will Self. Michelin Green Guide Wine Trails of Italy Peter

The concept of poesie critique - poetry that possesses both a poetic and a critical function - has an extensive history in modern literature. Written in response to another work of art, be it a painting, a film, a poem, or a piece of music, the critical poem comments on the latter in various ways but refuses to abandon its poetic mission. Marvelous Encounters examines surrealist poets writing in French, Spanish, and Catalan who

experimented with this intriguing genre. The first three chapters are concerned with the French surrealists, who began to cultivate critical poetry toward the end of World War I. Chapter 2 considers how Louis Aragon and Philippe Soupault appropriated the critical poem, as they reviewed books of poetry and films starring Charlie Chaplin. Chapter 3, which examines how Benjamin Peret and Paul Eluard conceived of critical poetry, analyzes their response to poems by

Tristan Tzara and paintings by Giorgio de Chirico and Joan Miro. Chapter 4 is devoted entirely to Andre Breton. *The Anarchist Cookbook* GENERAL PRESS

With a strong social emphasis and succinct narrative, *COMPETING VISIONS: A HISTORY OF CALIFORNIA, 2E* chronicles the stories of people who have had an impact on the state's history while presenting California as a hub of competing economic, social, and political visions. It highlights the state's cultural diversity and

explicitly compares it to other Western states, the nation, and the world-- illustrating the national and international significance of California's history. Its chronological organization and thematic approach enables readers to keep track of events and fully understand their significance. Telling the full story, the text concludes by discussing such current events as immigration and demographic changes, the Occupy Movement, energy challenges, and more.

Guerrilla Girls: The Art of  
Behaving Badly is the first

book to catalog the entire career of the Guerrilla Girls from 1985 to present. The Guerrilla girls are a collective of political feminist artists who expose discrimination and corruption in art, film, politics, and pop culture all around the world. This book explores all their provocative street campaigns, unforgettable media appearances, and large-scale exhibitions. • Captions by the Guerrilla Girls themselves contextualize the visuals. • Explores their well-

researched, intersectional takedown of the patriarchy In 1985, a group of masked feminist avengers—known as the Guerrilla Girls—papered downtown Manhattan with posters calling out the Museum of Modern Art for its lack of representation of female artists. They quickly became a global phenomenon, and the fearless activists have produced hundreds of posters, stickers, and billboards ever since. • More than a monograph, this book is a call to arms. • This career-spanning

volume is published to coincide with their 35th anniversary. • Perfect for artists, art lovers, feminists, fans of the Guerrilla Girls, students, and activists • You'll love this book if you love books like *Wall and Piece* by Banksy, *Why We March: Signs of Protest and Hope* by Artisan, and *Graffiti Women: Street Art from Five Continents* by Nicholas Ganz *Voicing the Word* Rowman & Littlefield Siggie et Graff, les deux narrateurs farfelus de ce roman, sont une version

moderne de Don Quichotte et Sancho Pança. Seule différence : c'est une énorme moto Royal Enfield 700 cm3 qu'ils sillonnent la campagne autrichienne avec ses jeunes filles aux tresses soyeuses, ses fermières opulentes et riches en souvenirs. Quant au moulin à vent, c'est le projet exorbitant, qui germe dans leurs cerveaux inventifs, de libérer tous les animaux du zoo de Vienne. Mais derrière les facéties de nos deux loustics se cache une intrigue plus

grave, celle qui explore les complexités et bizarreries de l'histoire de l'Europe centrale de ces cinq dernières décennies. Avec sa richesse, sa vitalité, sa fraîcheur, Liberté pour les ours !, premier roman de John Irving, marque les débuts d'un talent important et éminent original. Il nous livre aussi le regard émerveillé, attendri et déconcerté que posait alors un jeune Américain de vingt-cinq ans sur un coin de la vieille Europe et son destin tour à tour tragique et grotesque.

 Community Character provides a design-oriented system for planning and zoning communities but accounts for how people who participate in a community live, work, and shop there. The relationships that Lane Kendig defines here

reflect the complexity of the interaction of the built environment with its social and economic uses, taking into account the diverse desires of municipalities and citizens. Among the many classifications for a community's "character" are its relationship to other communities, its size and the resulting social and economic characteristics. According to Kendig, most comprehensive plans and zoning regulations are based entirely on density and land use, neither of

which effectively or consistently measures character or quality of development. As Kendig shows, there is a wide range of measures that define character and these vary with the type of character a community desires to create. Taking a much more

comprehensive view, this book offers “community character” as a real-world framework for planning for communities of all kinds and sizes. A companion book, A Practical Guide to Planning with Community Character, provides a detailed explanation of applying community

character in a comprehensive plan, with chapters on designing urban, sub-urban, and rural character types, using character in comprehensive plans, and strategies for addressing characteristic challenges of planning and zoning in the 21st century.
