WHEELER MARISA

Journal of Physical Education, Recreation & Dance Lulu Press, Inc

With wit, humor and imagination, the author entertains us with stories of growing up a second-generation Italian-American in Brooklyn during the Depression amidst a large clan of relatives. Among the family members we meet are his grandfather, a “piece of work,” his strong-willed mother, a real “Italian Mama,” and his musically gifted brother, a boyhood friend of Tony Bennett. In telling his life story, the author reflects upon his rich and varied life experiences. He relives his indoctrination into the Catholic Church (complete with stories of his erotic altar boy outings to Coney Island), boyhood vacations to an Italian resort in upstate New York, adventures in Europe as a young man, meeting the girl of his dreams, marrying and raising a family. Let it Be a Dance is, ultimately, the story of one man’s evolution from a physical-training instructor in the army in WW II, to a ballroom dance teacher and performer in a Catskill Mountain resort, to a professor of psychology (where he was dubbed “Crazy Frank”) and psychotherapist, and finally to a retiree with a life filled with creative opportunities. He writes, “Being not famous, rich, or powerful, if I do not tell my story, who will?”

Focusing on politics, gender, and identities, a group of international dance scholars provide a broad overview of new methodological approaches – with specific case studies – and how they can be applied to the study of ballet and modern dance. With an introduction exploring the history of dance studies and the development of central themes and areas of concerns in the field, the book is then divided into three parts: politics explores 'Ausdruckstanz' – an expressive dance tradition first formulated in the 1920s by dancer Mary Wigman and carried forward in the work of Pina Bausch and others gender examines eighteenth century theatrical dance – a time when elaborate sets, costumes, and plots examined racial and sexual stereotypes identity is concerned with modern dance. Exploring contemporary analytical approaches to understanding performance traditions, Dance Discourses' pedagogical structure makes it ideal for courses in performing arts and humanities.

An award-winning, step-by-step guide to college admissions that helps students through every aspect of the application process and gives them a proven approach to make their application stand out from the rest. Two expert college admissions consultants—a mother-daughter team—share their step-by-step, proven strategy for creating an application that stands out and gets you IN! College admissions has never been more stressful. Not only is admission ruthlessly competitive, with more and more qualified students applying each year, but the application process has become more confusing than ever before. Most parents and students feel anxious, overwhelmed, and confused by the choices and trade-offs. In! is based on the authors' 20+ years of experience working privately on boarding, college, and graduate school admissions with students from all over the world. While

there is no shortage of college admissions guidebooks on the market, *In!* offers students and their parents a crucial element that none of the others do: a clear, step-by-step strategy that helps students not only compete academically with other qualified applicants but also develop a defining interest—in incremental, attainable steps—that distinguishes them from their peers and gives them an edge with college admissions officers. This strategy is summed up in a four-word phrase: “be alike but spike.” This means that the applicant must perform on par with other students applying to similar colleges, while also working to stand out from the pack—like a spike on a graph—in one area. (Ironically, it’s often the “well-rounded student,” an ideal many applicants strive for, who gets rejected.) *In!* shows students how to create that distinction by identifying and “layering” their passion, showcasing their interest in many different ways and circumstances. Enlivened with instructive case studies as well as entertaining New Yorker cartoons, this book carefully guides students through the application process, showing them how to rise to the top of an applicant pool of thousands. And unlike most books about “getting in,” *In!*’s lessons do not end at college acceptance. Rather than viewing college admissions as a hurdle to be quickly and painlessly cleared, mother-daughter team Luteran and Bloom present it as an opportunity for students to mature, expand their horizons, and discover what makes them tick. Not only does this book get you in, it gives teenagers the tools and confidence they’ll need for future success. “Be Alike”—How to optimize your GPA, standardized tests, extracurricular activities, and more. “Spike”—How to develop a unique area of distinction that makes you stand out from your peers. How to create a winning college application—including personal essays, activity chart, letters of recommendation, and more. How to choose the right college for YOU, and how to prepare to attend, and afford, your top-choice school.

In *Odd Man Out*, Carol Armstrong offers an important study of Edgar Degas’s work and reputation. Armstrong grapples with contradictory portrayals of Degas as odd man out within the modernist canon: he was a realist whom realists rejected; a storyteller in pictures who did not satisfy novelist-critics; a painter of modern life who was not a modernist; a member of the impressionist group who was no impressionist. Armstrong confronts these and other paradoxes by analyzing the critical vocabularies used to describe Degas’s work. By reading several groups of the artist’s images through the lens of a sequence of critical texts, Armstrong shows how our critical and popular expectations of Degas are overturned and subverted. This is a reprint of the book first published by the University of Chicago Press in 1991.

Musical culture in Jewish communities in early modern Italy was much more diverse than researchers originally thought. An interdisciplinary reassessment, *Music and Jewish Culture in Early Modern Italy* evaluates the social, cultural, political, economic, and religious circumstances that shaped this community, especially in light of the need to recognize individual experiences within minority populations. Contributors draw from rich materials, topics, and approaches as they explore the inherently diverse understandings of music in daily life, the many ways that Jewish communities conceived of music, and the reception of and responses to Jewish musical culture. Highlighting the multifaceted experience of music within Jewish communities, *Music and Jewish Culture in Early Modern Italy* sheds new light on the place of music in complex, previously misunderstood environments.

This book is about K-pop dance and the evolution and presence of its dance fandom on social media. Based on five years of ethnographic fieldwork, interviews, choreography, and participation-observation with 40 amateur and professional K-pop dancers in New York, California, and Seoul, the book traces the evolution of K-pop dance from the 1980s to the 2020s and explains its distinctive feature called ‘gestural point choreography’ - front-driven, two-dimensional, decorative and charming movements of the upper body and face - as an example of what the author theorizes as ‘social media dance.’ It also explores K-pop cover dance as a form of intercultural performance, suggesting that, by imitating and idolizing K-pop dance, fans are eventually ‘fandoming’ themselves and their bodies. Presenting an ethnographic study of K-pop dance and its fandom, this book will be a valuable resource for students and scholars of Media Studies, Korean Studies, Performance Studies, and Dance.

In response to a scarcity of writings on the intersections between dance and Christianity, Dancing to Transform examines the religious lives of

American Christians who, despite the historically tenuous place of dance within Christianity, are also professional dancers. Emily Wright details how these dancing Christians transform what they perceive as secular professional by transforming concert dance into different kinds of religious practices in order to express individual and communal religious identities. Through a multi-site, qualitative study of four professional dance companies, Wright explores how religious and artistic commitments, everyday lived experience and varied performance contexts influence and shape the approaches of Christian professional dancers to creating, transforming and performing dance. Subsequently, this book provides readers with a greater awareness and appreciation for the complex interactions between American Christianity and dance. This study, in turn, delivers audiences a richer, more nuanced picture of the complex histories of these Christian, dancing communities and offers more fruitful readings of their choreographic productions.
