Multivariate analysis in vegetation research Unc School of Government

A roman à clef about racism, identity, and bohemian living amidst the tensions and violence of Algerian War-era France, and one of the earliest published accounts of the Paris massacre of 1961. As a teenager, Simeon Brown lost an eye in a racist attack, and this young African American journalist has lived in his native Philadelphia in a state of agonizing tension ever since. After a violent encounter with white sailors, Simeon makes up his mind to move to Paris, known as a safe haven for black artists and intellectuals, and before long he is under the spell of the City of Light, where he can do as he likes and go where he pleases without fear. Through Babe, another black American émigré, he makes new friends, and soon he has fallen in love with a Polish actress who is a concentration camp survivor. At the same time, however, Simeon begins to suspect that Paris is hardly the racial wonderland he imagined: The French government is struggling to suppress the revolution in Algeria, and Algerians are regularly stopped and searched, beaten, and arrested by the French police, while much worse is to come, it will turn out, in response to the protest march of October 1961. Through his friendship with Hossein, an Algerian radical, Simeon realizes that he can no longer remain a passive spectator to French injustice. He must decide where his true loyalties lie.

Discrimination Law Dramatists Play Service Inc

These compelling, moving stories dramatize the dilemmas of people who have stayed away from home too long, probing the question of how to act and interact in a world of incessantly shifting cultural boundaries. North of Tourism is about travellers who have broken free of boundaries, crossing the line from tourism to committed participation in societies in which they remain outsiders: an adventurous elderly Frenchwoman in Brazil, a dangerously solitary young human-rights worker in Guatemala, expatriates in Spain, uprooted Canadian in England, a Toronto

family splintered by its move to rural Ontario, Westerners adrift in the former Soviet Union and in the closing novella, a diplomat from Luxembourg struggling to salvage meaning from his scandal-shattered life as the First World War engulfs Montenegro and Serbia—all ride the tides of a world where all nations appear alluringly open, yet each continues to enforce the codes of its own history.

Courier Press (Holdings) Ltd and EMAP PLC Our Sunday Visitor Christy Constantakopoulou examines the history of the Aegean islands and changing concepts of insularity, with particular emphasis on the fifth century BC. Islands are a prominent feature of the Aegean landscape, and this inevitably created a variety of different (and sometimes contradictory) perceptions of insularity in classical Greek thought. Geographic analysis of insularity emphasizes the interplay between island isolation and island interaction, but the predominance of islands in the Aegean sea made island isolation almost impossible. Rather, island connectivity was an important feature of the history of the Aegean and was expressed on many levels. Constantakopoulou investigates island interaction in two prominent areas, religion and imperial politics, examining both the religious networks located on islands in the ancient Greek world and the impact of imperial politics on the Aegean islands during the fifth century.

The Old Régime in Canada Hart Publishing

The collection of twenty-seven papers published has been grouped into six major categories : corrosion process characterization and modeling, applications of Kramers-Kronig transformations for evaluating the validity of data, corrosion and its inhibition by either corrosion products of specially added inhibitors, corrosion of aluminum and aluminum alloys, corrosion of steel in soils and concrete, and evaluation of coatings on metal substrates.

Buddhism and Buddhist Pilgrims CRC Press

'A furiously paced, compulsive thriller' The Times Ned Allen is young, smart, and upwardly mobile. Several years into his career as an ad salesman for a successful computer magazine, Ned's finally left his small-town roots behind, and is certain that the sophisticated Manhattan world he covets is his forever. His wife

Lizzie is also a rising star of a prestigious PR firm. It seems that Ned's made it. But then what appeared to be a career break shows its true colours. Ned's forced to make some tough calls, among them a question of ethics and the small matter of whether to lie to his wife - and when the tough calls just keep getting tougher he finds himself on the brink of losing everything ... Readers say: 'Classic Kennedy. Brilliant plot, wonderful dialogue and characters. You are bowled over by the pace.' 'Excellent five star read from the first to the last page' 'If you haven't read any of Douglas Kennedy books please do'

Understanding Economics NCEA Level 3: Micro-Economic Concepts - Internal is a self contained textbook/workbook designed to satisfy the requirements of the recent curriculum changes and allows students to develop the Key Competencies with a range of learning activities. Concise notes and a comprehensive set of practice activities work to introduce and develop the Economic definitions, concepts and skills students require for the Internal Achievement Standard: Demonstrate understanding of micro-economic concepts. Review questions in each chapter allow students an opportunity to test their understanding and prepare for an internal standard. Notes and activities in this book have been trialled with NCEA Level 3 classes in Economics over several years with excellent results

Les Grands Classiques de la Littérature Anglaise Et Américaine Dunvegan, Ont. : Cormorant Books

This joint report by the International Energy Agency (IEA) and the OECD Nuclear Energy Agency (NEA) is the seventh in a series of studies on electricity generating costs. It presents the latest data available for a wide variety of fuels and technologies.

The Dance of the Islands Hachette UK

Covering both the history of mathematics and of philosophy, Descartes's Mathematical Thought reconstructs the intellectual career of Descartes most comprehensively and originally in a global perspective including the history of early modern China and Japan. Especially, it shows what the concept of "mathesis universalis" meant before and during the period of Descartes and how it influenced the young Descartes. In fact, it was the most

fundamental mathematical discipline during the seventeenth century, and for Descartes a key notion which may have led to his novel mathematics of algebraic analysis.

Chicago Guide to Preparing Electronic Manuscripts University of Chicago Press

Covering all the relevant UK and EEC discrimination laws with a critical analysis of those laws, this student text deals in detail with Northern Ireland's fair employment legislation, as well as sex, race and disability discrimination, and equal pay.

Roman Provincial Coinage Addison Wesley Publishing Company

Access to the Internet is an increasing problem in many areas of the world. As the popularity and usefulness of the Internet increases on a daily basis, lack of access to the technology is putting many groups at a disadvantage in terms of better education, better jobs and even in terms of higher levels of civic participation. However, creating a network infrastructure to serve outlying communities and sectors of the population is not straight-forward. This book brings together all the aspects of the problem – technical, regulatory and economic – into one volume to provide a comprehensive resource. It describes the latest technological advances that allow cost-effective network infrastructures to be built, and places them in the context of the applications and services that the infrastructure will deliver. A section on business models and case studies from North American and Europe demonstrate that the solutions are economically and practically viable. This book is essential for anyone looking to gain an understanding of the issues and technology surrounding the access debate. It will be of particular relevance to network engineers/designers/planners at the incumbent operator companies charged with delivering broadband access to as yet unconnected regions. Governments and regulatory bodies will also find this a useful guide to the problems that they may face.

Understanding Economics NCEA Level Three State University of New York Press

The TeX Reference Manual is the first comprehensive reference manual written by a programmer for programmers. It contains reference pages for each of TeX's 325 primitive control sequences. Over 80% of its reference pages contain examples that range from simple to challenging. Each example is typeset verbatim in a style which is easy to read and experiment with. TeX Reference Manual also just typesets the example, so you can

see what it makes, and explains how the example works. The description on each primitive's reference page is an annotated discussion of The TeXbook's treatment of the primitive. That means a TeX user will find it natural to move back and forth between the two books. One of TeX Reference Manual's innovative features is families. They simplify the search for the primitive which performs a particular task.

Beneath the Willow Tree Dell Publishing Company

A mixture of science and art, weaving is nearly as old as human history. Despite the many technological advances in the field, however, it is still virtually impossible to control each individual fiber in a woven structure. To help you meet this and other weaving challenges, Handbook of Weaving covers every step of the process clearly and systematically.

Descartes's Mathematical Thought New York Review of Books
Cet ouvrage prépare à l'explication de texte en anglais. Les "grands classiques" de la littérature anglaise et américaine sont répartis en trois sections : poésie, théâtre, fiction. Chaque section s'ouvre sur une introduction générale spécifique. Chaque texte est précédé d'une introduction à l'auteur et à l'œuvre, et accompagné de notes et de questions destinées à guider l'étudiant dans la compréhension et l'analyse littéraire. Niveau : DEUG, Licence, classes préparatoires littéraires.

Livres de France Pearson Education

Paints a detailed picture of everyday life in an early American community.

History Of The Counties Of Argenteuil, Que. And Prescott, Ont., From The Earliest Settlement To The Present G.N. Morang

This major intellectual biography illuminates the personal and historical events of Descartes's life, from his birth and early years in France to his death in Sweden, his burial, and the fate of his remains. Concerned not only with historical events but also with

the development of Descartes's personality, Rodis-Lewis speculates on the effect childhood impressions may have had on his philosophy and scientific theories. She considers in detail his friendships, particularly with Isaac Beeckman and Marin Mersenne. Primarily on the basis of his private correspondence, Rodis-Lewis gives a thorough and balanced discussion of his personality. The Descartes she depicts is by turns generous and unforgiving, arrogant and open-minded, loyal in his friendships but eager for the isolation his work required. Drawing on Descartes's writings and his public and private correspondence, she corrects the errors of earlier biographies and clarifies many obscure episodes in the philosopher's life.

Projected Costs of Generating Electricity 2010 OECD Publishing

THE STORY: Lewis is a tenured professor of mathematics at a well-regarded university. Underneath his veneer of success, however, lies a soul troubled by questions of personal and cultural identity. When his wife leaves him, apparently due to the fa

Electrochemical Impedance OUP Oxford

In 1853, France annexed the Melanesian islands of New Caledonia to establish a convict colony and strategic port of call. Unlike other European settler-dominated countries in the Pacific, the territory's indigenous people remained more numerous than immigrants for over a century. Despite military conquest, land dispossession, and epidemics, its thirty language groups survived on tribal reserves and nurtured customary traditions and identities. In addition, colonial segregation into the racial category of canaques helped them to find new unity. When neighboring anglophone colonies began to decolonize in the 1960s, France retained tight control of New Caledonia for its nickel reserves, reversing earlier policies that had granted greater autonomy for the islands. Anticolonial protest movements culminated in the 1980s Kanak revolt, after which two negotiated peace accords resulted in autonomy in a progressive form and officially recognized Kanak identity for the first time. But the near-parity of settlers and Kanak continues to make nation-building a challenging task, despite a 1998 agreement among Kanak and settlers to seek a "common destiny." This study examines the rise in New Caledonia of rival identity formations that became increasingly polarized in the 1970s and examines in particular the emergence of activist discourses in favor of Kanak cultural nationalism and land reform, multiracial progressive sovereignty,

or a combination of both aspirations. Most studies of modern New Caledonia focus on the violent 1980s uprising, which left deep scars on local memories and identities. Yet the genesis of that rebellion began with a handful of university students who painted graffiti on public buildings in 1969, and such activists discussed many of the same issues that face the country's leadership today. After examining the historical, cultural, and intellectual background of that movement, this work draws on new research in public and private archives and interviews with participants to trace the rise of a nationalist movement that ultimately restored

self-government and legalized indigenous aspirations for sovereignty in a local citizenship with its own symbols. Kanak now govern two out of three provinces and have an important voice in the Congress of New Caledonia, but they are a slight demographic minority. Their quest for nationhood must achieve consensus with the immigrant communities, much as the founders of the independence movement in the 1970s recommended.

A Dictionary of Medical Science ... University of Hawaii Press
To uphold family honor and tradition, Sheetal Prasad is forced to forsake the man she loves and marry playboy millionaire Rakesh

Dhanraj while the citizens of Raigun, India, watch in envy. On her wedding night, however, Sheetal quickly learns that the stranger she married is as cold as the marble floors of the Dhanraj mansion. Forced to smile at family members and cameras and pretend there's nothing wrong with her marriage, Sheetal begins to discover that the family she married into harbors secrets, lies and deceptions powerful enough to tear apart her world. With no one to rely on and no escape, Sheetal must ally with her husband in an attempt to protect her infant son from the tyranny of his family.sion.
