In *The Globalization of Irish Traditional Song Performance* Susan Motherway examines the ways in which performers mediate

the divide between local and global markets by negotiating this dichotomy in performance practice. In so doing, she discusses the globalizing processes that exert transformative influences upon traditional musics and examines the response to these influences by Irish traditional song performers. In developing this thesis the book provides an overview of the genre and its subgenres, illustrates patterns of musical change extant within the tradition as a result of globalization, and acknowledges music as a medium for re-negotiating an Irish cultural identity within the global. Given Ireland's long history of emigration and

colonisation, globalization is recognised as both a synchronic and a diachronic phenomenon. Motherway thus examines Anglo-Irish song and songs of the Irish Diaspora. Her analysis reaches beyond essentialist definitions of the tradition to examine evolving sub-genres such as Country & Irish, Celtic and World Music. She also recognizes the singing traditions of other ethnic groups on the island of Ireland including Orange-Order, Ulster-Scots and Traveller song. In so doing, she shows the disparity between native conceptions and native realities in respect to Irish cultural identity.

Folk Music, Traditional Music,
Ethnomusicology: Canadian Perspectives, Past and Present features the proceedings of the Fiftieth Annual Conference of the Canadian Society for Traditional Music / La Société Canadienne pour les Traditions Musicales (formerly the Canadian Folk Music Society / La Société canadienne de musique folklorique) that took place in November, 2006 in Ottawa at Carleton University and the Canadian Museum of Civilization. This publication showcases the diversity of music research currently being conducted by folk and traditional

music specialists, ethnomusicologists, and practicing musicians in Canada. The papers are organized in five sections according to common themes in contemporary research in ethnomusicology and folk music studies, and each section is preceded by a short introduction which highlights the section's theme(s) as well as the individual papers. Folk Music, Traditional Music, Ethnomusicology: Canadian Perspectives, Past and Present confirms the rich history of the Canadian Society for Traditional Music, a history that comprises enormous changes in scholarly research, musical practice, emergent technologies, changes in doing fieldwork, and

shifting identity boundaries over the past fifty years. This volume is intended as a contribution to published literature on ethnomusicological and folklore research in Canada, creating a new resource of historical, contemporary, and scholarly relevance that will appeal to academics and music enthusiasts alike. "Canadian ethnomusicologists' expertise in the realm of First Nations musics, and Anglo, Celtic and French folksong repertoires is already well established. This volume shows us the breadth of cultural territory with which 21st-century Canadian scholars of music and scholars of Canadian musics are now engaged, as well as their theoretical and

methodological sophistication. " —Kati Szego, School of Music, Memorial University

This much-needed book provides valuable insights into themes and genres in popular song in the period c. 1600-1900. In particular it is a study of popular ballads as they appeared on printed sheets and as they were recorded by folk song collectors. Vic Gammon displays his interest in the way song articulates aspects of popular mentality and he relates the discourse of the songs to social history. Gammon discusses the themes and narratives that run through genres of song material and how these are repeated and

reworked through time. He argues that in spite of important social and economic changes, the period 1600-1850 had a significant cultural consistency and characteristic forms of popular musical and cultural expression. These only changed radically under the impact of industrialization and urbanization in the nineteenth century. The book will appeal to those interested in folk song, historical popular music (including church music), ballad literature, popular literature, popular culture, social history, anthropology and sociology.

The aim of this study is to increase understanding of folk

music within an historical, European framework, and to show the genre as a dynamic and changing art form. The book addresses a plethora of questions through its detailed examination of a wide range of music from vastly different national and cultural identities. It attempts to elucidate the connections between, and the varying development of, the music of peoples throughout Europe, firstly by examining the ways in which scholars of different ideological and artistic ambitions have collected, studied and performed folk music, then by investigating the relationship between folk and popular music. Fiddling for Norway is an engrossing portrait of a fiddle-based folk revival in Norway, one that in many ways parallels contemporary folk institutions and festivals throughout the world, including American fiddling. It is a detailed case study in the politics of culture, the causes and purposes of folk revivals, and the cultivation of music to

define identity. The book begins with an investigation of the people and events important to Norwegian folk fiddling, tracing the history of Norwegian folk music and the growth and diversification of the folk music revival. The narrative takes us to fiddle clubs, concerts and competitions on the local, regional, and national levels, and shows how conflicting emphases—local vs. national identity, tradition vs. aesthetic qualities—continue to transform Norwegian folk music. Goertzen utilizes a large anthology of meticulously transcribed tunes to illustrate personal and regional repertoires, aspects of performance practice, melodic gesture and form, and

tune relationships. Ethnomusicologists and readers who fiddle will enjoy both the music and the stories it tells.

The Routledge Pantomime Reader is the first anthology to

document this entertainment genre—one of the most distinctive and ubiquitous in nineteenth-century Britain. Across ten different shows, readers witness pantomime's development from a highly improvisational venue for clowning, dance, and musical parody to a complex amalgamation of physical and topical comedy, stage wizardry, scenic spectacle, satire, and magical mayhem. Combining well-known tales such as "Cinderella", "Aladdin", and "Jack and the Beanstalk" with the lesser-known plotlines of "Peter Wilkins" and "The Prince of Happy Land", the book demonstrates not only how popular narratives

were adapted to the current moment, but also how this blend of high and low entertainment addressed a whole range of social and cultural anxieties. Along with carefully annotated scripts, readers will find detailed introductions to all of the collected pantomimes and supplementary materials such as reviews, reminiscences, and a host of visual materials that bring these neglected entertainments to life. The plays collected here provide a remarkable perspective on the history of sexuality, class, and race during a period of vast imperial expansion and important social upheaval in Britain

itself—essential reading for students and scholars of theatre history and popular performance.

Imogen Holst (1907-1984), the only child of Gustav Holst, was a composer and arranger of folksongs, writer on music, conductor, and administrator. She also acted as music assistant to Benjamin Britten, of whom she became a friend and close associate. She subsequently continued as Artistic Director of the Aldeburgh Festival until 1977, when she retired to devote more time to preparing a thematic catalogue of her father's music. This book offers the opportunity for a full assessment of Imogen Holst's life and

achievements, both in her own words and through assessments by noted scholars. The backbone of this volume is the journal she kept at the start of her working association with Britten, from 1952 to 1954. Here she provides a unique insight into the professional and domestic life of a major composer, now published in full for the first time. Around these writings is woven a biographical narrative by Christopher Grogan and Rosamund Strode, the latter Holst's successor as Britten's music assistant and one of her closest colleagues and friends. The volume also includes an essay on her musical style and a complete catalogue of works, and an essay on her musical style by

Christopher Tinker.

The Japanese say that 'folk song is the heart's home town'.

Traditional folk songs (min'yo) from the countryside are strongly linked to their places of origin and continue to play a role there. Today, however, they are also taught as a quasi-art music, arranged for stage and television, quoted in

Westernized popular songs and so forth.

"Desire, Drink and Death in English Folk and Vernacular Song, 1600-1900" Boydell Press

In Victorian times, England was famously

dubbed the land without music - but one of the great musical discoveries of the early twentieth century was that England had a vital heritage of folk song and music which was easily good enough to stand comparison with those of other parts of Britain and overseas. Cecil Sharp, Ralph Vaughan Williams, Percy Grainger, and a number of other enthusiasts gathered a huge harvest of songs and tunes which we can study and enjoy at our leisure. But after over a century of collection and discussion, publication and performance,

there are still many things we don't know about traditional song - Where did the songs come from? Who sang them, where, when and why? What part did singing play in the lives of the communities in which the songs thrived? More importantly, have the pioneer collectors' restricted definitions and narrow focus hindered or helped our understanding? This is the first book for many years to investigate the wider social history of traditional song in England, and draws on a wide range of sources to answer these questions and many more.
