Represent yourself in California Superior Court for a case worth up to \$25,000! Some cases are too big for small claims court and too small to interest a lawyer. But *Win Your Lawsuit* takes you step by step through the entire process of a limited jurisdiction case in California Superior Court. Take on common types of civil court cases worth up to \$25,000, including: • contract disputes • personal injuries • property damage cases • business disputes Whether you're bringing the suit or defending against one, this plain-English legal guide shows you how to prepare a complaint, file and serve papers, participate in settlement negotiations, present a case and much more. All the forms you need are included. Written by Roderic Duncan, a retired California Superior Court judge, this book includes the legal insight and practical tips that only a judge with over 25 years of experience can provide. The 3rd edition is completely updated and features information specific to each of California's 58 counties.

"Tanya Acker lays out a common sense approach to deciding when to go—or not to go—to court. *Make Your Case* is straightforward and an invaluable resource from someone with the legal insight to tell it like it is." —Judge Judy Sheindlin Tanya Acker, co-star of the nationally syndicated and Emmy-nominated show *Hot Bench*, demystifies civil litigation—from common lawsuits to new cases emanating from Covid-19 and looting (tenant vs. landlord rent disputes, small business damage, and more)—and lays out an expert's guide to legal proceedings inside the courtroom and out, giving readers professional insider information they need to find THEIR WIN in a lawsuit. Millions of people end up in civil court each year. They assume going to court is the next logical step in their fight, but they often have little idea about how the court system works or what they can reasonably expect of it. They make poorly informed judgments about whether court is the best option for solving a problem, what kind of solutions it can provide, and why it proceeds in the (sometimes) counterintuitive way it does. They think "winning" is only about the judgment or verdict rendered by judge or jury. Those "wins" are great—but if you don't know what the process can exact from you or why it works as it does, that blind procession to victory can end up costing you your real win. In *Make Your Case*, Tanya Acker cuts straight to the essentials, providing curated, targeted information based on her extensive experience regarding exactly what people want to know: what happens during court proceedings and why, and how to best prepare for it—or how to avoid court entirely and find a better way. Be smart. Be ready. Make your case.

This book is intended to walk you through most of the procedures used in courts hearing family law cases for almost any cause of action (such as custody or divorce) in any state in the United States. It shows you how to find the specific information for your state and cause of action and explains common issues. Because the book is intended for all states and each individual state has different laws, there may be differences depending on where you are. I have tried to point out common differences between states and how to ensure you know what is required in your state. This book covers such information as the structure of the court system; how to locate statutes, rules, and case law; the discovery process; various documents used in court; how to prepare for mediation and trial; common evidence issues; and much more. Also, this is a beginner's guide. There are some very in-depth issues that most cases will likely at least touch on at some point. These in-depth issues are sometimes called "weeds." This book does not go into the weeds, which tend to be issue specific, though I do provide coaching services that can walk you through those. This book also only covers procedures at the trial court level and only through the trial. Post trial and appeal issues are very in-

depth and could be the subject of their own book.

The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

The Criminal Law Handbook demystifies the criminal justice system. It explains—in plain English—how the system works, why police, lawyers, and judges do what they do, and what suspects, defendants, and prisoners can expect. This reference book covers the criminal process from stops on the street to arrest, bail, plea bargains, trials, sentencing, and appeals. Learn about defendants' constitutional rights, common defenses, defense strategies, and more. With this book, you can make sense of courtroom legalese (voir dire, ex parte, arraignment, indictment), unravel and understand criminal rules of procedure and evidence, and learn through everyday examples of the system at work. The authors provide useful and critical information in an easy-to-understand question-and-answer format. Whatever prompts your interest, the criminal justice system belongs to you and you have a right to know how it works.

This Handbook is designed to help people dealing with civil lawsuits in federal court without legal representation. Proceeding without a lawyer is called proceeding "pro se1," a Latin phrase meaning "for oneself," or sometimes "in propria persona," meaning "in his or her own person." Representing yourself in a lawsuit can be complicated, time consuming, and costly. Failing to follow court procedures can mean losing your case. For these reasons, you are urged to work with a lawyer if possible. Chapter 2 gives suggestions on finding a lawyer. Do not rely entirely on this Handbook. This Handbook provides a summary of civil lawsuit procedures, but it may not cover all procedures that may apply in your case. It also does not teach you about the laws that will control your case. Make sure you read the applicable federal and local court rules and do your own research at a law library or online to understand your case. The United States District Court for the Northern District of California has Clerk's Offices in the San Francisco, San Jose and Oakland courthouses. Clerk's Office staff can answer general questions, but they cannot give you any legal advice. For example, they cannot help you decide what to do in your lawsuit, tell you what the law means, or even advise you when documents are due. There are Legal Help Centers in the San Francisco, Oakland and San Jose courthouses where you can get free help with your lawsuit from an attorney who can help you prepare documents and give limited legal advice. This attorney will not be your lawyer and you will still be representing yourself. See Chapter 2 for more details.
