HOBBS MARELI

The Oxford Handbook of Karl Barth

Bloomsbury Publishing

This Handbook surveys the complex history of Trinitarian theology and reveals the Nicene unity still at work among Christians today despite ecumenical differences. Forty-five contributors examine doctrinal developments and variations from biblical times to the present day.

Karl Barth and Christian Ethics Oxford University Press, USA

This Handbook provides a comprehensive survey of Catholic, Orthodox, and Protestant philosophical and theological reception of Thomas Aquinas over the past 750 years.

The Oxford Handbook of Buddhist Ethics Oxford University Press on Demand
Annotation What are the practical and theoretical issues that concern and shape theological ethics? This handbook offers a guide to the discipline. Written by an international group of 30 scholars,

the book is aimed at all students and academics who want to explore more fully essential topics in Christian ethics. The Oxford Handbook on the Sources of International Law Oxford University Press, USA

This volume surveys the state of the discipline on topics of greatest importance to evangelical theology. The authors critically assess the state of the question, from both classical and evangelical traditions, and propose a future direction for evangelical thinking on the subject.--[Résumé de l'éditeur]. *History of Catholic Theological Ethics, A* Oxford University Press

A defining volume of essays in which leading international scholars apply an interdisciplinary approach to the long and evolving relationship between

English Literature and Theology. The Oxford Handbook of the Trinity Oxford University Press on Demand
The Handbook is a comprehensive reference work in ethical theory consisting of commissioned articles by leading scholars. The first part treats meta-ethics and the second part normative ethical theory. As with all the Oxford Handbooks, the collection is designed to achieve three goals: exposition of central ideas, criticism of other approaches, and defenses of distinct points of view.

The Oxford Handbook of Nineteenth-Century Christian Thought Oxford University Press

"Elizabeth Anscombe was one of the most important and original philosophers of the twentieth century, as well as

being a friend, pupil a student, and the main translator of Ludwig Wittgenstein. She wrote on a wide range of philosophical topics, publishing a handful of books and a large corpus of articles in her lifetime. This collection of twenty-two essays on the philosophy of Elizabeth Anscombe by an international array of experts in the field covers intention, ethical theory, human life, the first person, and Anscombe on other philosophers. It will be essential reading for anyone interested in Anscombe's work and in the philosophical problems which she wrote about"--

The Oxford Handbook of Elizabeth

Anscombe Oxford University Press
Christian Ethics provides a biblical, historical, philosophical and theological guide to the field of Christian ethics.

Prominent theologian David S. Cunningham explores the tradition of 'virtue ethics' in this creative and lively text, which includes literary and musical references as well as key contemporary theological texts and figures. Three parts examine: the nature of human action and the people of God as the 'interpretative community' within which ethical discourse arises the development of a 'virtue ethics' approach, and places this in its Christian context significant issues in contemporary Christian ethics, including the ethics of business and economics, politics, the environment, medicine and sex. This is the essential text for students of all ethics courses in theology, religious studies and philosophy.

The Oxford Handbook of Ethics and

Economics Paulist Press

This handbook examines the sources of international law, how the understanding of sources changed throughout the history of international law; how the main legal theories understood sources; the relationship between sources and the legitimacy of international law; and how sources differ across the various sub-areas of international law.--

The Oxford Handbook of Theology and Modern European Thought

Oxford University Press

The field of 'science and religion' is exploding in popularity among both academics and the reading public. This is a comprehensive and authoritative introduction to the debate, written by the leading experts yet accessible to the general reader.

The Oxford Handbook of Biblical Law

Bloomsbury Publishing

This volume collects 38 essays on the life, work, and influence of Thomas Aquinas, undoubtedly the greatest Christian theologian-philosopher in the medieval tradition. The two editors have divided their work into eight parts, each focusing on a major area or theme. In addition to the expected chapters on Thomas's metaphysics, natural theology, epistemology, and ethics, readers will find sections devoted to Thomas's theory of language, the historical background to his thought (Greek philosophy; Augustinian theology; Jewish and Islamic sources), and a consideration of the influence of his writings on later philosophical and theological traditions.
Christian Ethics Routledge

This critical study of Karl Barth's Christian theological ethics discusses Barth's controversial and characteristically misunderstood ethics of divine command. The surprising relation of his 'divine command ethics' to contemporary 'narrative theology' and 'virtue ethics' and specific moral themes concerning bonds between parents and children, the nature of truth telling, and the meaning of Christian love of God and neighbor are all discussed. This book reveals Barth's richness, depth, and insight, and places his work in constructive connection with salient themes in both Catholic and Protestant ethics. Attentive to the fullness of Barth's Christological vision and to the purposes and limits of his reflections on the Christian life in pursuit of the good,

William Werpehowski also advances conversations in Christian ethics about the nature of practical deliberation and decision, the orientation and dispositions that embody moral faithfulness, and the question and features of 'natural morality.'

[The Oxford Handbook of Early Christian Studies](#) OUP USA

A comprehensive overview of the study of Buddhist ethics in the twenty-first century.

The Oxford Handbook of Theological Ethics Oxford University Press

Economics and ethics are both valuable tools for analyzing the behavior and actions of human beings and institutions. Adam Smith, the father of modern economics, considered them two sides of the same coin, but since economics was

formalized and mathematicised in the late 1800s and early 1900s, the fields have largely followed separate paths. The Oxford Handbook of Ethics and Economics provides a timely and thorough survey of the various ways ethics can, does, and should inform economic theory and practice. The first part of the book, Foundations, explores how the most prominent schools of moral philosophy relate to economics; asks how morals relevant to economic behavior may have evolved; and explains how various approaches to economics incorporate ethics into their work. The second part, Applications, looks at the ethics of commerce, finance, and markets; uncovers the moral dilemmas involved with making decisions regarding social welfare, risk,

and harm to others; and explores how ethics is relevant to major topics within economics, such as health care and the environment. With esteemed contributors from economics and philosophy, The Oxford Handbook of Ethics and Economics is a resource for scholars in both disciplines and those in related fields. It highlights the close relationship between ethics and economics in the past while and lays a foundation for further integration going forward.

The Oxford Handbook of Theology, Sexuality, and Gender Oxford University Press

The Oxford Handbook of Systematic Theology brings together a set of original and authoritative accounts of all the major areas of current research in

Christian systematic theology, offering a thorough survey of the state of the discipline and of its prospects for those undertaking research and teaching in the field. The Handbook engages in a comprehensive examination of themes and approaches, guiding the reader through current debates and literatures in the context of the historical development of systematic theological reflection. Organized thematically, it treats in detail the full array of topics in systematic theology, as well as questions of its sources and norms, its relation to other theological and non-theological fields of enquiry, and some major trends in current work. Each chapter provides an analysis of research and debate on its topic. The focus is on doctrinal (rather than historical)

questions, and on major (rather than ephemeral) debates. The aim is to stimulate readers to reach theological judgements on the basis of consideration of the range of opinion. Drawn from Europe, the UK, and North America, the authors are all leading practitioners of the discipline. Readers will find expert guidance as well as creative suggestions about the future direction of the study of Christian doctrine.

The Oxford Handbook of Religion and Science Oxford University Press

Karl Barth (1886-1968) is generally acknowledged to be the most important European Protestant theologian of the twentieth century, a figure whose importance for Christian thought compares with that of Augustine, Thomas Aquinas, John Calvin, Martin

Luther, and Friedrich Schleiermacher. Author of the Epistle to the Romans, the multi-volume Church Dogmatics, and a wide range of other works - theological, exegetical, historical, political, pastoral, and homiletic - Barth has had significant and perduring influence on the contemporary study of theology and on the life of contemporary churches. In the last few decades, his work has been at the centre of some of the most important interpretative, critical, and constructive developments in the fields of Christian theology, philosophy of religion, and religious studies. The Oxford Handbook of Karl Barth is the most expansive guide to Barth's work published to date. Comprising over forty original chapters, each of which is written by an expert in the field, the

Handbook provides rich analysis of Barth's life and context, advances penetrating interpretations of the key elements of his thought, and opens and charts new paths for critical and constructive reflection. In the process, it seeks to illuminate the complex and challenging world of Barth's theology, to engage with it from multiple perspectives, and to communicate something of the joyful nature of theology as Barth conceived it. It will serve as an indispensable resource for undergraduates, postgraduates, academics, and general readers for years to come.

The Oxford Handbook of Evangelical Theology OUP Oxford

Selected essays draw on reason as a distinct source of theology, discussing evolutionary biology and behavioural genetics, psychology, anthropological research, philosophical research, and queer theory. It examines the history of theologies of sexuality and gender, with close analysis of the Bible and the Christian tradition.

The Oxford Handbook of English Literature and Theology Oxford University Press

The Oxford Handbook of Kierkegaard brings together some of the most distinguished contemporary contributors to Kierkegaard research together with

some of the more gifted younger commentators on Kierkegaard's work. There is significant input from scholars based in Copenhagen's Søren Kierkegaard Research Centre, as well as from philosophers and theologians from Britain, Germany, and the United States. Part 1 presents some of the philological, historical, and contextual work that has been produced in recent years, establishing a firm basis for the more interpretative essays found in following parts. This includes looking at the history of his published and unpublished works, his cultural and social context, and his relation to Romanticism, German Idealism, the Church, the Bible, and theological traditions. Part 2 moves from context and background to the exposition of some of the key ideas and

issues in Kierkegaard's writings. Attention is paid to his style, his treatment of ethics, culture, society, the self, time, theology, love, irony, and death. Part 3 looks at the impact of Kierkegaard's thought and at how it continues to influence philosophy, theology, and literature. After an examination of issues around translating Kierkegaard, this section includes comparisons with Nietzsche, Heidegger, and Wittgenstein, as well as examining his role in modern theology, moral theology, phenomenology, postmodernism, and literature.

The Oxford Handbook of Aquinas Oxford University Press

The Oxford Handbook of Catholic Theology provides a one-volume introduction to all the major aspects of

Catholic theology. Part One considers the nature of theological thinking, and the major topics of Catholic teaching, including the Triune God, the Creation, and the mission of the Incarnate Word. It also covers the character of the Christian sacramental life and the major themes of Catholic moral teaching. The treatments in the first part of the Handbook offer personal syntheses of Catholic teaching, but each offers an account in accord with Catholic theology as it is expressed in the Second Vatican Council and authoritative documentation. Part Two focuses on the historical development of Catholic Theology. An initial section offers essays on some of Catholic theology's most important sources between 200 and 1870, and the final section of the

collection considers all the main movements and developments in Catholic theology across the world since 1870. This comprehensive volume features fifty-six original contributions by some of the best-known names in current Catholic theology from the Americas, Europe, Asia, and Africa. The chapters are written in an engaging and

easily comprehensible style functioning both as a scholarly reference and as a survey of the field. There are no comparable studies available in one volume and the book will be an indispensable reference for students of Catholic theology at all levels and in all contexts.
