We say that someone has charisma when they can attract, inspire and influence people through their personal qualities. We think that this is a special power some fortunate individuals have that makes them able to affect and influence others at a deep emotional level, to communicate effectively with them and make interpersonal connections. But very few of us understand what charisma really is. It is not widely-applauded magnetism or shallow charm. Rather, it's the deep-rooted powerful charisma that helps people deliver incredible results. This charisma is a learnable skill. It's the result of developing specific behaviours, which are proven to improve not only how people feel about you, but which will help others change their own behaviours and achieve success. *Charismatic Leadership* will show you how to be a powerful influencer with your peers, your colleagues and your customers. You'll learn why charisma is a vital asset in any organization, understand its essential components, find out how to grow your charismatic presence and discover why you need the companion skills of coaching, problem-solving and empathy. Using charisma effectively helps everyone perform at a high level. This book will show you how.
