By the New York Times bestselling author of *The Bone Clocks* and *Cloud Atlas* | Longlisted for the Man Booker Prize Selected by Time as One of the Ten Best Books of the Year | A New York Times Notable Book | Named One of the Best Books of the Year by The Washington Post Book World, The Christian Science Monitor, Rocky Mountain News, and Kirkus Reviews | A Los Angeles Times Book Prize Finalist | Winner of the ALA Alex Award | Finalist for the Costa Novel Award From award-winning writer David Mitchell comes a sinewy, meditative novel of boyhood on the cusp of adulthood and the old on the cusp of the new. *Black Swan Green* tracks a single year in what is, for

thirteen-year-old Jason Taylor, the sleepest village in muddiest Worcestershire in a dying Cold War England, 1982. But the thirteen chapters, each a short story in its own right, create an exquisitely observed world that is anything but sleepy. A world of Kissingeresque realpolitik enacted in boys' games on a frozen lake; of "nightcreeping" through the summer backyards of strangers; of the tabloid-fueled thrills of the Falklands War and its human toll; of the cruel, luscious Dawn Madden and her power-hungry boyfriend, Ross Wilcox; of a certain Madame Eva van Outryve de Crommelynck, an elderly bohemian emigré who is both more and less than she

appears; of Jason's search to replace his dead grandfather's irreplaceable smashed watch before the crime is discovered; of first cigarettes, first kisses, first Duran Duran LPs, and first deaths; of Margaret Thatcher's recession; of Gypsies camping in the woods and the hysteria they inspire; and, even closer to home, of a slow-motion divorce in four seasons. Pointed, funny, profound, left-field, elegiac, and painted with the stuff of life, *Black Swan Green* is David Mitchell's subtlest and most effective achievement to date. Praise for *Black Swan Green* "[David Mitchell has created] one of the most endearing, smart, and funny young narrators ever to rise up from the pages of a

novel. . . . The always fresh and brilliant writing will carry readers back to their own childhoods. . . . This enchanting novel makes us remember exactly what it was like.”—The Boston Globe “[David Mitchell is a] prodigiously daring and imaginative young writer. . . . As in the works of Thomas Pynchon and Herman Melville, one feels the roof of the narrative lifted off and oneself in thrall.”—Time

Due to a great chemical similarity with the biological calcified tissues, many calcium orthophosphates possess remarkable biocompatibility and bioactivity. Materials scientists use this property extensively to construct artificial bone grafts that are either entirely made of or only surface-coated with the biologically relevant calcium orthophosphates.

Porous scaffolds made of calcium orthophosphates are very promising tools for tissue engineering applications. A comprehensive overview of calcium orthophosphates, this book highlights their importance and biomedical uses.

The Junkers Ju 52 Story
Walter de Gruyter GmbH & Co KG

The iconic and legendary Junkers Ju 52 first flew in 1930. Designed and built by the Junkers Aircraft Company of Dessau, Germany, the Ju 52 was originally intended as a single-engine cargo aircraft. An upgraded model, the Ju 52/3m, was powered by three engines and excelled as an eighteen-seat airliner. By the late 1930s, hundreds of the safe, reliable and much loved Ju 52/3ms were serving with airlines in more than twenty countries, including the pre-war British Airways. Also, it was used as a bomber by the Luftwaffe, particularly in the Spanish Civil War. During the Second World War, the Ju 52/3m was the mainstay of Luftwaffe

transport squadrons. Affectionately known as 'Faithful Old Annie' and 'Iron Annie', the Ju 52/3m was used during the invasions of Norway, the Low Countries, Crete and the resupply of Stalingrad and Rommel's Africa Korps. In all, around 5,000 were built and after the war, production continued in France and Spain. Amazingly, captured Ju 52/3ms were rebuilt post-war and briefly operated as airliners on domestic routes in Great Britain. [Bear Is a Bear](#) Random House

Plays and Operettas
(1916) BRILL

In this provocative and engaging new book, Randy Barnett outlines a powerful and original theory of liberty structured by the liberal conception of justice and the rule of law. Drawing on insights from philosophy, political theory, economics, and law, he shows how this new conception of liberty can confront, and solve, the central societal problems of knowledge, interest, and power. - ;What is liberty, as opposed to license, and why is it so important? When people pursue happiness, peace, and prosperity whilst living in society, they confront pervasive problems of knowledge, interest, and power. These

problems are dealt with by ensuring the liberty of the people to pursue their own ends, but addressing these problems also requires that liberty be structured by certain rights and procedures associated with the classical liberal conception of justice and the rule of law. In this controversial new work, Barnett examines the serious social problems that are addressed by liberty and the background or 'natural' rights and 'rule of law' procedures that distinguish liberty from license. He goes on to outline the constitutional framework that is needed to protect this structure of liberty. This is the only discussion of the liberal

conception of justice and the rule of law to draw upon insights from philosophy, economics, political theory, and law to describe comprehensively the vital social functions performed by adherence to these concepts. And, although the book is intended to challenge specialists, its clear and accessible prose ensure that it will be of immense value to both scholars and students working in a range of academic disciplines. - *The British General Election of 2019* Red Globe Press
