Understanding War in Afghanistan Oxford University Press

Welcome to my book, The Nazarene. May Yahuah give us all eyes to see the Truth, the ears to hear what the stars proclaim day after day, night after night, and the mind to overcome 2,000 years of the Lying Pen of the Scribes. Today we are faced with the traditions/doctrines passed down generation after generation that are “nothing but lies, false gods, and things of no profit”. In this book, I am going to overcome these lies. I am going to show the proper meaning and intent of Scripture by correcting the mistranslations and demonstrate the meaning in context. I will portray The Nazarene in proper context of The Heavenly Scroll, within the proper relationship to his Father, and lay out his life as a human being. I will show that Yahusha came to show us The Way whereby we all can achieve the Fullness of Deity in our bodies, Fulfill The Law, and defeat death. That “Way” is Mikveh, Circumcision, and Offering on Passover. While these Hebrew Roots teachers claim to have ‘come out of Babylon’ they remain knee deep in it. These “teachers” are self-appointed and remain Hellenized... They all have denied The Creator’s Witness of Yahusha written in the stars at creation called The Heavenly Scroll. Instead of teaching the Truth, that Yahusha was given Glory with Yahuah at Creation, written in The Heavenly Scroll, where The Branch is foretold as a “Lamb that would be slaughtered”; they teach us that Yahusha pre-existed and was co-creator. These men who claim to understand the Scriptures, have denied the very source of inspiration of all the Prophets, as they all to a man, were Witnessing the coming of the Branch, Orion, in The Heavenly Scroll. We have twisted the Scriptures to serve our own blasphemous purposes to tickle the ears of the people who want a demi-god in the image of all pagan religions. Much like when the Israelites rejected Yahuah as their King and demanded a human King like all the pagan nations. We have adopted “the way of the pagans” in the most fundamental pagan doctrine of all! Incarnation. Yahusha the Nazarene was rejected 2,000 years ago, betrayed by everyone he knew, beaten to the edge of death, and then nailed to a tree. He has suffered no less over the past 2,000 years, as we have falsely accused Yahusha the Nazarene of being “God in the flesh” and used his image to idolize a ‘man who died’ as God in our hearts! In Yahusha’s name we are taught to blaspheme our Creator, deny the Set Apart Ruach, and commit the unpardonable sin! We have created in our own minds, an image of a demi-god we say was ‘Yahuah in the flesh’ making Yahuah out to be a liar, forcing the Creator to be conformed to our own human image (instead being conformed to His Divine Image), and we deny The Creator’s (Yahuah’s) immortality teaching that He came to Earth as a man and died (that is a pagan myth originating in Babylon). Scripture openly declares that Yahusha is NOT ‘Yahuah, who came in the flesh’. I will explain exactly what “according to the flesh” means in this book and prove Yahuah would not, could not, ever “come in the flesh”. Instead of Yahusha, we are taught “Yahuah came in the flesh” which is The Spirit of the False Messiah. We have twisted the Scriptures to serve our own blasphemous purposes to tickle the ears of the people who want a demi-god in the image of all pagan religions. Much like when the Israelites rejected Yahuah as their King and demanded a human King like all the pagan nations. We have adopted “the way of the pagans” in the most fundamental pagan doctrine of all! Incarnation. Our translators cater to the whims of the people and continue to force feed humanity false translations knowingly! Scholars have proven these translations to be in error, proven the Name of Yahuah was removed, proven the name of the Messiah has been replaced by the name of the False Messiah. Textual Critics The Nazarene 3 have known for hundreds of years that the Greeks twisted the Scriptures and where they are in error. Scholars now openly admit that the Apostle Sha’ul’s writings were twisted even further by the “Reformers” into what we call The Pauline Doctrine. The Pauline Doctrine is a mistranslated, Greek appropriate, sound bite driven implied LIE! It is 100% contrary to what Sha’ul taught as a “Leader of

the Nazarenes”. Yet today, these self-appointed teachers do not have the anointing to correct Sha’ul’s work even going so far as to commit false witness against Sha’ul, blaming him for what the ‘Greeks’ have done, as if Sha’ul is the author of The Pauline Doctrine. In doing so, they have taken one of the most inspired, anointed, and qualified teachers of the Nazarenes from us! I will show us what it means to be Nazarene, what they believed and what Yahchanan, Yahusha, Yaakov and Sha’ul taught that continued to be believed for 500 years before the Nazarenes were driven underground by Christians and Hellenized Jews. I will prove that not one of them accepted The Virgin Birth, they rejected Incarnation, they taught Yahusha was Adopted upon his Mikveh (just like we are), they kept the ‘intent’ of The Law, not the letter, they followed the ancient Enochian Path; and they knew that Yahusha Fulfilled The Law through Mikveh (he was NOT a “Living Torah”). Yahusha was the Fulfillment of the Debar (Predestined ‘Plan’ written in The Heavenly Scroll) not the Logos (Word made flesh). These issues are at the very foundation of The Yahushaic Covenant. The teachers in the Hebrew Roots movement show a total disconnect from who The Nazarenes were, what they taught, and what the Nazarene’s believed! Overall these teachers today in the Hebrew Roots and Messianic Movements show very little Spiritual anointing to even teach. Yet, they “appear” as worthy teachers to the masses, unless you truly understand what they teach.

"Soldiers of the Freedom Rock: Stories of Guthrie County Iowa's Combat Veterans" tells the historic tales of 26 veterans from rural, south central Iowa. The battlefield dramas span from World War II through the most current wars in Afghanistan and Iraq, including compelling stories in the air, on the ground, and at sea. Author Brick R. Imerman, a retired Navy F/A-18 Hornet squadron commander, was encouraged by local readers to write this book after penning a six-month veterans series, entitled "The Freedom Rock Series," which appeared in the local newspaper. Imerman's stories of local combat heroism were used as inspiration by nationally-renowned artist Ray "Bubba" Sorensen for his artwork on the Guthrie County Freedom Rock Veterans' Memorial, which was painted in Guthrie Center, Iowa, during the summer of 2014. "Soldiers of the Freedom Rock" intertwines the tales of combat heroism with the painting of the Freedom Rock to create a moving tribute, not only for the veterans described in the book, but for veterans and freedom lovers everywhere. Full color with over 100 historic photographs, "Soldiers of the Freedom Rock" documents one small corner of the larger mosaic of combat heroism from our nation's military. Included in the book: firsthand accounts from airmen in B-24 and B-17 bombers who braved the skies above Nazi controlled Europe, some who gave their lives, and others who were shot down, but lived to tell about it; the story of a soldier who survived both his Sherman tank sinking off Omaha Beach on D-Day and blazing tank battles in the Ardennes, only to be killed mere weeks before war's end; a sailor's story of bravery firing from a tiny gun mount on the destroyer USS Hoel into the giant Japanese battleship Yamato before perishing beneath the waves at the historic Battle off Samar; the daring tale of a 15-year-old British girl who was nearly killed the first day Nazi bombers attacked London, who went on to serve her nation, ultimately becoming a U.S. citizen; and dozens of other riveting stories spanning through Korea, Vietnam, Iraq, and Afghanistan. Including the stories of eight officers and 18 enlisted personnel - ranking from Private to Major General - from the Navy, Marine Corps, Army, and Air Force, "Soldiers of the Freedom Rock" has a story for every veteran, male or female.

As Ambassador and Special Envoy on Afghanistan from 1989 to 1992, Peter Tomsen has had close relationships with Afghan leaders and has dealt with senior Taliban, warlords, and religious leaders involved in the region's conflicts over the last two decades. Now Tomsen draws on a rich trove of never-before-published material to shed new light on the American involvement in the long and continuing Afghan war. This book offers a deeply informed perspective on how Afghanistan's history as a “shatter zone” for foreign invaders and its tribal society have shaped the modern Afghan

narrative. It brings to life the appallingly misinformed secret operations by foreign intelligence agencies, including the Soviet NKVD and KGB, the Pakistani ISI, and the CIA. American policy makers, Tomsen argues, still do not understand Afghanistan; nor do they appreciate how the CIA's covert operations and the Pentagon's military strategy have strengthened extremism in the country. At this critical time, he shows how the U.S. and the coalition it leads can assist the region back to peace and stability.

America, the Taliban, and the War Through Afghan Eyes Rav Sha'ul

Over the years, Outreach Israel Ministries and Messianic Apologetics have had to field the question, Do you believe that the New Testament was originally written in Hebrew? many, many times. Given the complicated spiritual and theological dynamics present within the Messianic movement-one has to really have some courage to say, No, we do not believe that the New Testament was originally written in Hebrew. There is, to be sure, no Hebrew New Testament document or fragment of any kind from the broad Biblical period. This stands in stark contrast to the fact that the Greek New Testament, and fragments of the Greek New Testament, are the most widely attested and accessible work of antiquity-even more so than the classical works of Greece and Rome. The claim that the Gospel of Matthew was originally written in Hebrew, has actually been disregarded by many in Biblical Studies. The idea that there are hundreds, if not thousands, of colloquial Hebrew expressions or Hebraisms contained in the New Testament, so-called proof of a written Hebrew original, can be contested. Ultimately, because of much of the Messianic movement's leaders' lack of homework-there are many ideas circulating about a presumed "Hebrew New Testament" which cannot be substantiated. Sorting through this, sifting through data and noise, and evaluating what is fact and what is fiction-is by no means something easy. While seeking to maintain the inspiration, integrity, and reliability of the Greek Apostolic Scriptures-no one wants to be perceived as somehow trying to discount the veracity of the Hebrew Tanach, Hebrew language studies, or even studies in Judaism as somehow illegitimate. Yet, there are ideological questions to be asked about the existence of the Greek Apostolic Scriptures, historical questions to be asked about the logic of Hebrew New Testament proponents, and other significant side-issues to be evaluated. As we seek some resolution to these issues, we should each be asked to prayerfully and thoughtfully consider the following statement from Proverbs 18:17: "The one who first states a case seems right, until the other comes and cross-examines" (NRSV). Many of you are likely to have heard some teachings or statements on the origin of the Apostolic Scriptures or Messianic Writings-which have made some presumed "sense" to you. It may be time for you to perhaps consider another opinion as it involves the origins of the New Testament. This publication offers you some information, which you are going to have to weigh into your evaluations, as we consider some of the documented facts regarding the origin of the New Testament or Apostolic Scriptures.

The astonishing, uplifting story of a real-life Indiana Jones and his humanitarian campaign to use education to combat terrorism in the Taliban's backyard Anyone who despairs of the individual's power to change lives has to read the story of Greg Mortenson, a homeless mountaineer who, following a 1993 climb of Pakistan's treacherous K2, was inspired by a chance encounter with impoverished mountain villagers and promised to build them a school. Over the next decade he built fifty-five schools—especially for girls—that offer a balanced education in one of the most isolated and dangerous regions on earth. As it chronicles Mortenson's quest, which has brought him into conflict with both enraged Islamists and uncomprehending Americans, Three Cups of Tea combines adventure with a celebration of the humanitarian spirit.

This is the first major study of the life and times of John Charles McQuaid, Archbishop of Dublin, who for more than three decades, from 1940 to 1972, dominated political and social and religious developments in Ireland. While Archbishop McQuaid ranks as one of the great social reformers of independent Ireland, he was also a 'control freak'. A superb administrator, and an admirer of J. Edgar Hoover's FBI, he imposed his iron will on Irish politics and society, by instilling fear among his clergy and people. Resolutely opposed to Communism and liberalism, McQuaid's 'vigilance committee' kept files on politicians and priests, workers and students, doctors and lawyers, nuns and nurses, housewives and trade unionists, writers and film-makers. There was no room for dissent. His ambition was directed towards the building up of a truly Catholic-State-he attempted to exclude Protestants, Jews, liberal Catholics and feminists. This book tells the inside story of how McQuaid crushed the attempts of the reformist Minister for Health, Dr Noel Browne, to introduce a free welfare system for mothers and children. It also shows how McQuaid exercised enormous power over all aspects of government: education, hospitals, the adoption services, penal institutions and

the criminal justice system. For Protestants in northern Ireland he embodied their fears of 'Rome Rule'. Here is the first detailed look at the career of this giant in Irish life, who also wielded enormous influence in defining Ireland's relations with the Vatican and the Irish Catholic diaspora worldwide. In this exceptional study, McQuaid comes to life as an extraordinary man, able to seize every opportunity to forward his ideals and those of his Church.

During a pivotal few months in the middle of the First World War all sides-Germany, Britain, and America-believed the war could be concluded. Peace at the end of 1916 would have saved millions of lives and changed the course of history utterly. Two years into the most terrible conflict the world had ever known, the warring powers faced a crisis. There were no good military options. Money, men, and supplies were running short on all sides. The German chancellor secretly sought President Woodrow Wilson's mediation to end the war, just as British ministers and France's president also concluded that the time was right. The Road Less Traveled describes how tantalizingly close these far-sighted statesmen came to ending the war, saving millions of lives, and avoiding the total war that dimmed hopes for a better world.Theirs was a secret battle that is only now becoming fully understood, a story of civic courage, awful responsibility, and how some leaders rose to the occasion while others shrank from it or chased other ambitions. "Peace is on the floor waiting to be picked up!" pleaded the German ambassador to the United States. This book explains both the strategies and fumbles of people facing a great crossroads of history. The Road Less Traveled reveals one of the last great mysteries of the Great War: that it simply never should have lasted so long or cost so much. span

In autumn 2001, U.S. and NATO troops were deployed to Afghanistan to unseat the Taliban rulers, repressive Islamic fundamentalists who had lent active support to Osama bin Laden's Al-Qaeda jihadists. The NATO forces defeated and dismantled the Taliban government, scattering its remnants across the country. But despite a more than decade-long attempt to eradicate them, the Taliban endured—regrouping and reestablishing themselves as a significant insurgent movement. Gradually they have regained control of large portions of Afghanistan even as U.S. troops are preparing to depart from the region. In his authoritative and highly readable account, author Hassan Abbas examines how the Taliban not only survived but adapted to their situation in order to regain power and political advantage. Abbas traces the roots of religious extremism in the area and analyzes the Taliban's support base within Pakistan's Federally Administered Tribal Areas. In addition, he explores the roles that Western policies and military decision making—not to mention corruption and incompetence in Kabul—have played in enabling the Taliban's return to power.

An American reporter's chilling account of being kidnapped and imprisoned by the Taliban, in the no-man's-land between Afghanistan and Pakistan Jere Van Dyk was on the wrong side of the border. He and three Afghan guides had crossed into the tribal areas of Pakistan, where no Westerner had ventured for years, hoping to reach the home of a local chieftain by nightfall. But then a dozen armed men in black turbans appeared over the crest of a hill. Captive is Van Dyk's searing account of his forty-five days in a Taliban prison, and it is gripping and terrifying in the tradition of the best prison literature. The main action takes place in a single room, cut off from the outside world, where Van Dyk feels he can trust nobody—not his jailers, not his guides (who he fears may have betrayed him), and certainly not the charismatic Taliban leader whose fleeting appearances carry the hope of redemption as well as the prospect of immediate, violent death. Van Dyk went to the tribal areas to investigate the challenges facing America there. His story is of a deeper, more personal challenge, an unforgettable tale of human endurance.

The groundbreaking investigative story of how three successive presidents and their military commanders deceived the public year after year about America's longest war, foreshadowing the Taliban's recapture of Afghanistan, by Washington Post reporter and three-time Pulitzer Prize finalist Craig Whitlock. Unlike the wars in Vietnam and Iraq, the US invasion of Afghanistan in 2001 had near-unanimous public support. At first, the goals were straightforward and clear: to defeat al-Qaeda and prevent a repeat of 9/11. Yet soon after the United States and its allies removed the Taliban from power, the mission veered off course and US officials lost sight of their original objectives. Distracted by the war in Iraq, the US military became mired in an unwinnable guerrilla conflict in a country it did not understand. But no president wanted to admit failure, especially in a war that began as a just cause. Instead, the Bush, Obama, and Trump administrations sent more and more troops to Afghanistan and repeatedly said they were making progress, even though they knew there was no realistic prospect for an outright victory. Just as the Pentagon Papers changed the public's understanding of Vietnam, The Afghanistan Papers contains startling revelation after revelation from people who played a direct role in the war, from leaders in the White House and the Pentagon to soldiers and aid workers on the front lines. In unvarnished language, they admit that the US government's strategies were a mess, that the nation-building project was a colossal failure, and that drugs and corruption gained a stranglehold over their allies in the Afghan government. All told, the account is based on interviews with more than 1,000 people who knew that the US government was presenting a distorted, and sometimes entirely fabricated, version of the facts on the ground. Documents unearthed by The Washington Post reveal that President Bush didn't know the name of his Afghanistan war commander—and didn't want to make time to meet with him. Secretary of Defense Donald Rumsfeld admitted he had "no visibility into who the bad guys are." His successor, Robert Gates, said: "We didn't know jack shit about al-Qaeda." The Afghanistan Papers is a shocking account that will supercharge a long overdue reckoning over what went wrong and forever change the way the conflict is remembered.

This is the story of the SAS raid on Pebble Island during the Falklands War.In atrocious weather, 48 men of 22 SAS Regiment were landed by Sea King Helicopter on the Island. Their task was to destroy

the 11 enemy aircraft located at the Airstrip on the Island and neutralize the Argentinean force posted there to guard it. The raid was successful and all the Aircraft were destroyed but debate still goes on as to whether the raid was a political gesture to give the British Public some action or whether it was to knock out the Airbase that could have made life difficult for the landings at San Carlos Bay later in the War. The book covers sections on: history of the engagement, training and planning involved, equipment used, weapons file, breakdown of forces engaged, consequences and controversies as well as personal accounts of those involved.

An eloquent call to draw on the lessons of the past to address current threats to international order. The ancient Greeks hard-wired a tragic sensibility into their culture. By looking disaster squarely in the face, by understanding just how badly things could spiral out of control, they sought to create a communal sense of responsibility and courage—to spur citizens and their leaders to take the difficult actions necessary to avert such a fate. Today, after more than seventy years of great-power peace and a quarter-century of unrivaled global leadership, Americans have lost their sense of tragedy. They have forgotten that the descent into violence and war has been all too common throughout human history. This amnesia has become most pronounced just as Americans and the global order they created are coming under graver threat than at any time in decades. In a forceful argument that brims with historical sensibility and policy insights, two distinguished historians argue that a tragic sensibility is necessary if America and its allies are to address the dangers that menace the international order today. Tragedy may be commonplace, Brands and Edel argue, but it is not inevitable—so long as we regain an appreciation of the world's tragic nature before it is too late.
